I.4. Type of the contracting authority

Other type: Supply of Heating

I.5. Main activity

Other activity: Supply of Heating

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Concrete work and foundations for CCS Oslo

Reference number: 194659647

II.1.2. Main CPV code

45262300 Concrete work

II.1.3. Type of contract

Works

II.1.4. Short description

Hafslund Oslo Celsio AS (Celsio) is Norway's largest district heating supplier and accounts for 36 percent of all district heating generated in Norway. We produce and distribute renewable thermal energy (district heating and cooling) in Stor-Oslo and ensure safe and environmentally friendly final treatment of waste that cannot or should not be reused or recycled. .

Work is being carried out on large development projects, and the company intends to establish a full-scale carbon capture and storage (CCS) plant at Klemetsrud. Celsio will be an important contributor to the green revolution and an even more environmentally friendly and sustainable Oslo.

Celsio's energy recovery plant at Klemetsrud accounts for roughly 17% of Oslo's CO₂ emissions. The carbon capture plant is one of the most important measures for reducing the city's emissions. The plant will be able to capture 400,000 tonnes of CO₂ per year, which is equal to the emissions from 200,000 cars.

For more information on Hafslund Oslo Celsio, see www.celsio.no

II.1.5. Estimated total value

Value excluding VAT: 230 000 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no
