Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Security Systems Enterprise Service
Reference number: SR223296156

II.1.2. Main CPV code

72222300 Information technology services

II.1.3. Type of contract

Services

II.1.4. Short description

HMRC require an external business partner who can install and maintain a Cloud Based (Crown Hosted) Enterprise level unified access control and video system which must be compatible with existing and planned installations at our regional centres utilising a master application server and regional satellite application servers arrangement.

The supplier will lead the delivery, installation, configuration and management of the master unified security enterprise system and associated contingency solution for system resilience. The system must be capable of holding up to 250 000 card holder records. The supplier will provide strategic and technical support to fully integrate the locally unified satellite security enterprise systems at the existing and planned regional centre locations across the UK as they become operational.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 1 600 000,00 GBP

II.2. Description

II.2.2. Additional CPV code(s)

35120000 Surveillance and security systems and devices

II.2.3. Place of performance

NUTS code: UK United Kingdom

Main site or place of performance: UNITED KINGDOM.

II.2.4. Description of the procurement

HMRC require an external business partner who can install and maintain a Cloud Based (Crown Hosted) Enterprise level unified access control and video system which must be compatible with existing and planned installations at our regional centres utilising a master application server and regional satellite application servers arrangement.

The supplier will lead the delivery, installation, configuration and management of the master unified security enterprise system and associated contingency solution for system resilience. The system must be capable of holding up to 250 000 card holder records.

The supplier will provide strategic and technical support to fully integrate the locally unified satellite security enterprise systems at the existing and planned regional centre locations across the UK as they become operational.

For information the existing locally unified satellite security enterprise systems in place are CCure 9000 and Victor Video Edge systems which operate through master and satellite application servers.

The Enterprise Partner will work with HMRC to set up a communication port with the planned government wide access control database.

II.2.5. Award criteria
