The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Overview and short description of the terms: the tenderer will be a legally established company. Documentation: Company Registration Certificate from the Register of Business enterprises.

Foreign tenderers must instead submit equivalent certificates determined by the legislation in the state where the tenderer is established.

In their tender offer, tenderers must present a tax and VAT certificate issued by competent bodies in the tenderer's home state or the country where the tenderer is established, that shows the tenderer has fulfilled their obligations to pay taxes, duties and social security.

Norwegian tenderers should order the certificate via the Norwegian Tax Authority's home page, www.skatteetaten.no. The certificate must not be more than 6 months old calculated from the tender deadline.

The tenderer must be certified in accordance with ISO 9001(2015).

Documentation requirement:

- 1) Certificates issued by independent bodies, documenting that the tenderer is certified in accordance with ISO 9001 (2015). The independent bodies must be accredited by Norsk akkreditering [Norwegian Accreditation] or equivalent bodies in other EEA states;
- 2) Other documentation for equivalent quality assurance measures will be accepted if the tenderer does not have the possibility to gather such certificates within the deadline, and this is not due to the tenderer himself. This requires that the tenderer documents the measures equivalent to the requested environmental management systems or standards;
- 3) If the tender uses other businesses to fulfil the requirement, the tenderer must also account for how the ISO 9001 system of the supporting business specifically will be incorporated into the relevant Contract.

The tenderer must be certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management), or Eco-lighthouse.

Documentation requirement:

- 1) Certificates issued by independent bodies, documenting that the tenderer is certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management), Eco-lighthouse, or other environmental management standards based on relevant European or international standards from accredited bodies. The independent bodies must be accredited by Norsk akkreditering [Norwegian Accreditation] or equivalent bodies in other EEA states;
- 2) Other documentation for equivalent environmental management measures will be approved if the tenderer does not have the possibility of obtaining such certificates within the deadline, and this is not due to the tenderer himself. This requires that the tenderer documents the measures equivalent to the requested environmental management systems or standards;
- 3) If the tender uses other businesses to fulfil the requirement, the tenderer must also account for how the environmental management system of the supporting business specifically will be incorporated in the relevant contract.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

The tenderer's Annual Financial Statement, the Board's Annual Report and Auditor's Report for the last 3 years and newer information (quarterly reports) of significance to the tenderer's fiscal figures. The form in chapter E2 point 4 shall be completed.

If relevant, a brief account regarding information about economic conditions or losses that are not documented in other places, and that must be documented in accordance to the Norwegian and/or international accounting standards.

If relevant, an overview of any newly implemented, ongoing or pending tax or public reviews of the tenderer's business.

If the tenderer has justifiable cause to not present the documentation requested by the contracting authority, he can document his economic and financial capacity to submit any other document of relevance to the company's fiscal figures/economy and that the contracting authority considers suitable. The tenderer must give grounds for why he cannot present the documentation requested by the contracting authority.

Minimum level(s) of standards possibly required:

Tenderers shall have good economic and financial capacity to fulfil the contract and shall fulfil the following requirements:

- tenderers must have positive equity,
- average annual turnover of minimum 25 000 000 NOK, for the last 3 fiscal years,
- the tenderer must have an equity ratio of at least 10 %.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

An overview and brief description of the qualification requirements:

Relevant experience — documentation requirement:

A list of up to 5 and no less than 3 contracts that the tenderer has implemented or is implementing, during the last 5 years, calculated from the tender deadline. The list must, cf. the form included in chapter E, include the following for each of the contracts:

- name of the recipient (contracting authority),
- description of what the contract works entailed, including relevance in relation to the qualification requirements point 1 and 2,
- which works were carried out by the tenderer, and which works were performed by sub-contractors (contract facilitators),
- the date of the assignment,
- the value of the contract,
- reference person/contact person at the Contracting Authority with contact data (telephone number and email address), and indication of their role at the Contracting Authority during the contract period. The contractor is responsible for the reference person being available to provide a reference.

The builder's experience — documentation requirement:

The qualification requirement is documented through the list described above in point 2.4.1).

SHA system qualification requirement:

The tenderer must have a system that demonstrates working pro actively to ensure the safety, health and work environment (SHA), with relevance for equivalent works included in this contest. The system will be subject to periodic review.

Accident frequency (H1-value):

Qualification Requirement:

Tenderers and their central contract facilitators should have an average H1 value lower than 10 for the last 3 years. If the H1 value is higher than 10, an account must be given of the developing trend of the H1 value and any F value, that will express the severity of any high H1 value.

If the tenderer is a working partnership (supplier group), the requirement applies to each of the participants.

The H1-value is defined as the number of work accidents with absence in relation to the hours worked multiplied by 106/outer environment — qualification requirement:

The tenderer must be certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management), or Eco-lighthouse.

Minimum level(s) of standards possibly required:

Relevant experience — qualification requirement:

The tenderer must have sufficient experience of a relevant nature and degree of difficulty from the following works:

- 1) The main disciplines included in the assignment include: operation and maintenance of roads;
- 2) The following sub-assignments are of significant importance for the contract work:
 - winter operations,
 - clearing traffic areas/traffic objects,
 - construction notification and traffic management.

The builder's experiences — qualification requirement:

The Norwegian Public Roads Administration and other builders' experiences with the tenderer will be assessed.

The tenderer is required to present references for relevant contracts that he himself has implemented in a satisfactory manner.

Conditions which will be evaluated are related to (a):

- documentation of completed quality,
- fulfilment of contracts,
- compliance with provisions and procedures for HSE,
- compliance with provisions for wages and working conditions,
- observance of deadlines,
- follow up during the warranty/claims period,
- use of apprentices.

SHA system — documentation requirement:

- 1) Description of the tenderer's system for SHA;
- 2) Table of contents of the system;
- 3) Documentation of audits carried out in recent years, with confirmation from the person/s who have undertaken the review.

2.5.2.

Accident frequency (H1-value):

Documentation requirement:

- 1) Overview of H1 value for the tenderer and central contract facilitators during the last 3 years. "The tenderer and central contract facilitators" means the tenderer himself, all parties in any working partnership, as well as any business that the tenderer uses to fulfil the qualification requirements;
- 2) If the H1 value is higher than 10, an account must be given regarding the developing trend of the H1 value and any F value, that will express the severity of any high H1 value. Enclosed with the tender offer, there must also be an individual account of whether improvement measures have been implemented, and if so, also documentation of the effect of these measures.

Outer environment:

Documentation requirement:

- 1) Certificates issued by independent bodies, documenting that the tenderer is certified in accordance with ISO 14001 (2015), EMAS (EU Eco-Management and Audit Scheme for environmental management), Eco-lighthouse, or other environmental management standards based on relevant European or international standards from accredited bodies. The independent bodies must be accredited by Norsk akkreditering [Norwegian Accreditation] or equivalent bodies in other EEA states;
- 2) Other documentation for equivalent environmental management measures will be approved if the tenderer does not have the possibility of obtaining such certificates within the deadline, and this is not due to the tenderer himself. This requires that the tenderer documents the measures equivalent to the requested environmental management systems or standards;
- 3) If the tender uses other businesses to fulfil the requirement, the tenderer must also account for how the environmental management system of the supporting business specifically will be incorporated in the relevant contract.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 15/03/2019 Local time: 15:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

Norwegian

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Tender must be valid until: 01/06/2019

IV.2.7. Conditions for opening of tenders

Date: 15/03/2019 Local time: 15:00
