I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Other activity: Building and construction

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

1003701 PNN-BUT K919.2 — Motorised Easel

Reference number: 2018/145

II.1.2. Main CPV code

38650000 Photographic equipment

II.1.3. Type of contract

Supplies

II.1.4. Short description

The new National Museum project needs to procure a motorised easel with a communication module for a control and integrated photography/camera system with high flexibility, which will be installed in a separate photography room in the new museum.

II.1.6.

Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 1 575 000,00 NOK

II.2. Description

II.2.3. Place of performance

NUTS code: NO Norge

Main site or place of performance: Oslo.

II.2.4. Description of the procurement

The easel will be used for photographing paintings of varying sizes, where the largest can be several metres. The easel/system must have functions that enable paintings to be photographed in several sections, so that all of the pictures can be put together to a picture file with very high resolution, which gives a detailed picture that shows, amongst other things, strokes of the brush and small cracks. It must be possible to use the system for photography in normal light, side light and for ultraviolet and infrared photography. It ought to be flexible, so that all types of cameras can be used and so that it is flexible for use in different types of light from different directions. The distance between the painting and camera must also be adjustable and flexible. The easel can be either wall mounted or floor mounted.

The fixings for the painting must be flexible as the frame can be crooked. It ought to be possible to tip the fixings backwards and forwards.

The easel will be assembled in a room that is 120,7 m². The wall where it will be assembled /stand against is 865 cm with a height of approx. 465 cm.

The optimum system will be an easel that is motorised with movement vertically and horizontally (X-Y), with the camera remaining still. The easel ought to be computer controlled with software that communicates with all camera systems and that can be programmed to control the movement of the easel and release the camera. The easel system must be able to remember/store the movements, so that they can be repeated (e.g., with different types of lighting).

Other alternatives can be a combination of a movable easel and a movable camera, or where the object stands still and the camera is moved horizontally and vertically.

II.2.5. Award criteria

Price

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2019/S 038-087014](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice

Section V: Award of contract

A contract/lot is awarded: yes

V.2. Award of contract

V.2.1. Date of conclusion of the contract

28/05/2019

V.2.2. Information about tenders

Number of tenders received: 2

The contract has been awarded to a group of economic operators: no

V.2.3. Name and address of the contractor

Official name: Trosterud Mek AS

Town: Oslo

NUTS code: NO Norge

Postal code: 0581

Country: Norway

The contractor is an SME: no

V.2.4. Information on value of the contract/lot

Total value of the contract/lot: 1 575 000,00 NOK

V.2.5. Information about subcontracting
