Water

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Procurement 158/2020 - Parallel framework agreements for construction projects

Reference number: 158/2020

II.1.2. Main CPV code

45000000 Construction work

II.1.3. Type of contract

Works

II.1.4. Short description

Parallel framework agreements will be signed for construction projects over a 6 year period with 2 tenderers. Vann- og avløpsetaten (VAV) has many minor assignments throughout the year for the establishment of water and sewage installations by conventional excavation and bulging, including the re-establishment of roads and green areas, the establishment/renovation /alteration of single manholes and large manholes cast on site, such as measuring and reducing manholes. The framework agreements will enable efficient contract signings for such

assignments. VAV will carry out the engineering design services and prepare drawings, Safety, health and work environment documentation (Norwegian: SHA), the Environmental Monitoring Plan (Norwegian: MOP) (where required), and a description of each individual assignment based on the attached description of quantity.

See the requirements specification for more information on the scope of the procurement.

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

45231300 Construction work for water and sewage pipelines

II.2.3. Place of performance

NUTS code: NO081 Oslo

Main site or place of performance: Oslo

II.2.4. Description of the procurement

Parallel framework agreements will be signed for construction projects over a 6 year period with 2 tenderers.

Vann- og avløpsetaten (VAV) has many minor assignments throughout the year for the establishment of water and sewage installations by conventional excavation and bulging, including the re-establishment of roads and green areas, the establishment/renovation /alteration of single manholes and large manholes cast on site, such as measuring and reducing manholes. The framework agreements will enable efficient contract signings for such assignments.

VAV has previously had a framework agreement with a contractor for excavation and light layer jobs, and the new contracts will replace the previous contract.

VAV will carry out the engineering design services and prepare drawings, Safety, health and work environment documentation (Norwegian: SHA), the Environmental Monitoring Plan (Norwegian: MOP) (where required), and a description of each individual assignment based on the attached description of quantity. It must be possible to use the contracts for call-offs with description amounts.

It must be possible to use the contracts for projects that we will mainly engineer ourselves, projects that are brought forward when the time for implementation is correct, when other projects stop or urgent projects. In addition there will be minor assignments for improvements to the water and sewage network.

It must be possible to use the contracts for assignments up to NOK 15,000,000 excluding VAT per call-off. The framework agreements' total value is, however, NOK 150,000,000 excluding VAT.

VAV reserves the right to:

- hold separate contests for water and sewage installations for conventional excavation and bulging including the re-establishment of roads and green areas, establishment/renovation /alteration of single manholes, and large manholes cast on site, such as measuring and reducing manholes in the framework agreement period.
- enter into other framework agreements that partially overlap the framework agreements. See annex 1 of the tender documentation, 'technical requirements specification' for further information on the scope of the procurement.

II.2.5. Award criteria

Quality criterion - Name: Environment / Weighting: 30%

Price - Weighting: 70%

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

The framework agreement will no longer have any effect when the framework agreement's total value has been reached.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Negotiated procedure with prior call for competition

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2021/S 131-349549](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a periodic indicative notice

Section V: Award of contract

Contract No: 2

Title:

Procurement 158/2020 - Parallel framework agreements for construction projects
