Short description of the contract or purchase(s)

Command, Control, Communication and Computer systems. The requirement is to deliver a Ground Based Air Defence (GBAD) capability along with an initial support solution for up to 5 years. This will include delivery of Battle Management Command, Control, Communications, Computers and Intelligence (BMC4I) functionality, integrated with networked Land-Ceptor Launchers into a primary Fire Control Centre (FCC) which will centrally Command and Control missile engagements within the context of a wider Air Defence Command and Control (C2) Battle Management (ADBM) environment.

An alternate FCC with medium mobility and capable of operating independently, will also be required in the event that the primary FCC/Control and Reporting Centre (CRC) are disabled. The BMC4I provider will be responsible for delivering and supporting the alternate FCC including vehicles and mobility requirement.

The BMC4I provider will be the key systems integrator of the capability including provision of communications links and integration with existing in-service communications infrastructure, as required whilst conforming to MoD rules on communications infrastructure provision. It is expected that, given the time-frames to Initial Operating Capability (IOC), the BMC4I system will be relatively mature and within the provider's range of existing products. The BMC4I provider will be required to demonstrate the extensibility of the system from the specific operational application here to enabling the development of a contingent BMC4I system with further investment in mobility, communications and hardening. Please see the 'Additional Information' section for further details and the DPQQ access code.

All companies that wish to express an interest in this requirement are invited to attend a briefing at Defence Academy, Shrivenham on 16.2.2015 (10:00-12:00). If you wish to attend please send an email to the address provided above by no later than 10:00 Friday 13th February. A maximum of 2 attendees per company please. If you are unable to attend slides can be provided on request.

The British Army's Rapier Ground Based Air Defence (GBAD) system is forecast to reach its Out of Service Date (OSD) between 2019 and 2020. The replacement system will be based on the Land-Ceptor missile; a derivative development of the Common Anti-air Modular Missile (CAMM) from which Sea-Ceptor is also derived. Land-Ceptor represents a step change in performance over Rapier, employing active seeker technology and Beyond Visual Range (BVR) capability.

The performance characteristics of the missile presents a new challenge to the British Army in conducting BVR GBAD engagements and requires a comprehensive new approach in GBAD

Battle Management Command, Control, Computers, Communications and Intelligence (BMC4I) in order to assure the airspace and conduct engagements without unacceptable risk to allied and non-hostile manned aircraft.

All those expressing an interest will be expected to complete a dynamic Pre-Qualification Questionnaire to ensure that only those with adequate professional and technical knowledge are invited to negotiate. It is desired that a minimum of 3 companies be issued with an ITN. An Invitation to Negotiate (ITN) may be issued to selected companies following the Authority's assessment of the PQQ and will contain details of the procurement and potential future options. The ITN will be assessed to establish the Most Economically Advantageous Tender which meets the requirement within the demanding time-lines for the project. Full criteria will be specified in the ITN alongside the evaluation process.

Suppliers interested in working with the Ministry of Defence should register on the MOD Supplier Information Database (SID) Register, available at www.contracts.mod.uk The MOD SID is a database of active and potential suppliers available to all MOD and UK Defence procurement personnel, and is the main supplier database of MOD Procurement organisations. Please note: the registration and publication of a company profile on the MOD SID does not mean or imply that the supplier has in any way been vetted or approved by the MOD. Suppliers wishing to compete for advertised MOD contracts must respond to any specific call for competition by submitting a separate expression of interest in accordance with the instructions of the purchasing organisation.

From 2.4.2014 the Government is introducing its new Government Security Classifications Policy (GSC) to replace the current Government Protective Marking Scheme. A key aspect of this is the reduction in the number of security classifications used. All suppliers to the Department are encouraged to make themselves aware of the changes as it may impact on this Requirement. The link below to the Gov.uk website provides information on the new GSC.
