II.1.4. Short description

The sixth form colleges with national vocational subjects with training offers for site engineering and site machine mechanics plan to procure 7 tracked excavators in weight class 14 -16 tonnes. We would prefer machines with a normal rear.

The environmental profile of the machines is important for us as education institutions. Thus, emphasis will be put on the environmental class of the engine and options for using renewable diesel, c.f. standard EN 15940.

The announcement is shared by all of the schools, but each individual schools is responsible for financial settlement for their machine. Thus 6 individual contracts must be prepared.

Schools involved are:

- Fauske sixth form college – 8205 Fauske 1 machine,
- Kirkenes sixth form college – 9910 Bjørnevatn 1 machine,
- Os sixth form college – 5210 Os 1 machine,
- Øksnevad sixth form college – 4352 Kleppe 1 machine,
- Sam Eyde sixth form college – 4848 Arendal 2 machines,
- Solør sixth form college – 2435 Braskereidfoss 1 machine.

II.1.5. Estimated total value

Value excluding VAT: 9 000 000,00 NOK

II.2. Description

II.2.2. Additional CPV code(s)

43261000 Mechanical shovels

II.2.3. Place of performance

NUTS code: NO Norge

Main site or place of performance: Arendal.

II.2.4. Description of the procurement

The sixth form colleges with national vocational subjects with training offers for site engineering and site machine mechanics plan to procure 7 tracked excavators in weight class 14 -16 tonnes. We would prefer machines with a normal rear.

Colleges and geographical preferences will create a need for individual adaptations. These adaptations will be agreed afterwards, based on the tenderer's list of adaptations/extra equipment or in accordance with the tenderer's description in the response form (annex 2).

The excavators shall also be used for site machine mechanics' education. Access to, and training in the digital system for troubleshooting/diagnostics, as well as reading user data will, therefore, be of decisive importance. In addition access is wanted for relevant components /models for pupil training.

The environmental profile of the machines is important for us as education institutions. Thus, emphasis will be put on the environmental class of the engine and options for using renewable diesel, c.f. standard EN 15940.

The enquiry will, through the reponse form from the seller, form the basis for a "basic machine". The shall-requirements must be fulfilled, details must be provided of whether the can-requirements are included in the "basic delivery", or whether they can be fulfilled as an additional choice.

The announcement is shared by all of the schools, but each individual schools is responsible for financial settlement for their machine. Thus six individual contracts must be prepared.

Schools involved are:

- Fauske sixth form college – 8205 Fauske 1 machine,
- Kirkenes sixth form college – 9910 Bjørnevatn 1 machine,
- Os sixth form college – 5210 Os 1 machine,
- Øksnevad sixth form college – 4352 Kleppe 1 machine,
- Sam Eyde sixth form college – 4848 Arendal 2 machines,
- Solør sixth form college – 2435 Braskereidfoss 1 machine.

There will be different delivery costs due to the geographical locations of the colleges. Tenderers must calculate their gross delivery costs and split them equally between each machine.
