

United Kingdom-St Helier: Asbestos removal services

OJ S 36/2014 20/02/2014

Contract notice

Works

Directive 2004/18/EC**Section I: Contracting authority**

I.1. Name and addresses

Official name: States of Jersey

Postal address: Corporate Procurement, Treasury and Resources Department, Cyril Le Marquand House

Town: St Helier

Postal code: JE4 8UL

Country: United Kingdom

For the attention of: Mr Daniel De La Cour

E-mail: d.delacour@gov.je

Telephone: +44 1534440217

I.2. Type of the contracting authority

Regional or local authority

I.3. Main activity

General public services

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

SOJ-T-TTS-Asbestos Disposal Project.

II.1.2. Type of contract and place of performance or delivery

Works

Main site or place of performance: Jersey.

NUTS code

II.1.3. Information about a framework agreement or a dynamic purchasing system**II.1.4. Information about framework agreement****II.1.5. Short description of the contract or purchase(s)**

The States of Jersey Transport and Technical Services Department

Asbestos Disposal Request for Information (RFI).

Introduction

The States of Jersey (SoJ) are currently researching the possibilities of on Island processing and disposal of asbestos waste.

SoJ are currently in the early stages of developing an on Island asbestos strategy and before

deciding on how best to embark on a procurement exercise are conducting market research into available technologies.

Any contractor or technology supplier who believes they are able to fulfil the Island's needs as briefly outlined in this RFI are encouraged to respond to this request for information detailing the following;

- A basic description of the disposal strategy.
- A basic process description and design concept.
- Materials reception and storage strategy.
- Materials handling strategy.
- Estimated manpower and operational requirements.
- Specialised skill requirements.
- Overall plant energy requirements.
- Land area requirements.
- Environmental compliance standards.
- Indicative operational costs and indicative capital costs for budgetary purposes. This is not a request for quotation or tender.

Outline Requirement

There is approximately 1 400 tonnes of asbestos contaminated materials stored on the island. The Island produces 550 to 700 tonnes of asbestos waste per year and of this approximately 20 % is licenced. The envisaged process should be able to cope with licenced and unlicensed asbestos waste.

There is a requirement on Jersey to neutralise and dispose of historic stockpiles of asbestos waste materials and future asbestos waste arising's from the Island. The neutralization and disposal method must be to the highest environmental standards and the residues from the facility must be deemed to be safe for eternity.

The facility is to be regulated to the highest standards by The States Of Jersey Department of Planning and Environment Waste Regulators and the proof of emissions and processes security must be open to scrutiny by members of the public and NGO's. A suitable disposal route for any arising's from the disposal process must be considered in the overall scheme. The neutralisation process must be capable of dealing with a wide range of asbestos materials and materials that have asbestos attached to them.

Any proposed plant or process must have a low visual impact and must not produce odours, noise or any other effect that may impact on residential or recreational areas.

The proposed method of operation is to build and commission a plant that is oversized for the Island need. This plant will then process the historic stockpiles on a continuous basis until they are safe. The plant will then operate in a batch mode to process asbestos materials collected over short periods of time. It may be possible to implement a solution that has a temporary processing plant and a permanent processing plant with the temporary plant being disassembled and removed when the stockpiles have been diminished.

The requisite Planning permissions and Environmental permissions have not yet been applied for and the preferred contractor or technology supplier will use existing data and reference plants to assist with the submission to planning and Environment for approvals.

Submission of Information

Responses to this RFI are to be emailed to Richard Fauvel Acting Director, Waste Strategy, Transport and Technical Services Department at r.fauvel@gov.je no later than 17.3.2014.

II.1.6. CPV code(s)

90650000 Asbestos removal services, 45262660 Asbestos-removal work, 42000000 Industrial machinery, 44000000 Construction structures and materials; auxiliary products to construction (except electric apparatus), 73000000 Research and development services and related consultancy services, 90000000 Sewage, refuse, cleaning and environmental services

II.1.7. Information about the Government Procurement Agreement (GPA)

II.1.8. Lots

II.1.9. Information about variants

II.2. Scope of the procurement

II.2.1. Total quantity or scope

II.2.2. Information about options

II.2.3. Information about renewals

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

III.2.2. Economic and financial ability

III.2.3. Technical and professional ability

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure Restricted

- IV.1.2. Information about the limits on the number of candidates to be invited**
- IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue**
- IV.2. Award criteria**
 - IV.2.1. Award criteria**
 - IV.2.2. Information about electronic auction**
- IV.3. Administrative information**
 - IV.3.1. File reference number attributed by the contracting authority**
 - IV.3.2. Previous publication concerning this procedure**
 - IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document**
 - IV.3.4. Time limit for receipt of tenders or requests to participate**
17.3.2014 - 12:00
 - IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates**
 - IV.3.6. Languages in which tenders or requests to participate may be submitted**
English.
 - IV.3.7. Minimum time frame during which the tenderer must maintain the tender**
 - IV.3.8. Conditions for opening of tenders**

Section VI: Complementary information

- VI.1. Information about recurrence**
- VI.2. Information about European Union funds**
- VI.3. Additional information**
- VI.4. Procedures for review**
 - VI.4.1. Review body**
 - VI.4.2. Review procedure**
 - VI.4.3. Service from which information about the review procedure may be obtained**
- VI.5. Date of dispatch of this notice**
18.2.2014
