Other activity: energy

---

**Section II: Object**

**II.1. Scope of the procurement**

**II.1.1. Title**

Cable Tail Extension Installation Services.

Reference number: OM-287-TI-02-A1

**II.1.2. Main CPV code**

31321400 Underwater cable

### **II.1.3. Type of contract**

Services

### **II.1.4. Short description**

Wave Hub are planning the installation of 4 no. 33kV rated cable tail extensions from the current dry mate connectors to 4 developer berths offshore Hayle, Cornwall. This scope details the Installation requirements to replace the current 11kV rated dry mate connectors with 33kV rated in-line joints, install 4 new lengths of cable tails and to terminate the extension cables with 1/2 of a 33kV dry mate connector.

### **II.1.5. Estimated total value**

Value excluding VAT: 4 000 000,00 GBP

### **II.1.6. Information about lots**

This contract is divided into lots: no

## **II.2. Description**

### **II.2.2. Additional CPV code(s)**

31321400 Underwater cable

### **II.2.3. Place of performance**

NUTS code: UKK30 Cornwall and Isles of Scilly

Main site or place of performance: Offshore Hayle, Cornwall.

### **II.2.4. Description of the procurement**

Services required for the installation of 4 no. 33kV rated cable tail extensions from the current dry mate connectors to 4 developer berths offshore Hayle, Cornwall. To include replacement of current 11kV rated dry mate connectors with 33kV rated in-line joints, installation 4 new lengths of cable tails and termination of the extension cables with 1/2 of a 33kV dry mate connector.

### **II.2.5. Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.6. Estimated value**

Value excluding VAT: 4 000 000,00 GBP

### **II.2.7. Duration of the contract, framework agreement or dynamic purchasing system**

Start: 03/05/2016 End: 08/07/2016

This contract is subject to renewal: no

### **II.2.10. Information about variants**

Variants will be accepted: no

### **II.2.11. Information about options**

Options: no

### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
yes

Identification of the project:

### **II.2.14. Additional information**

## Section III: Legal, economic, financial and technical information

---

### III.1. Conditions for participation

#### III.1.2. Economic and financial standing

Selection criteria as stated in the procurement documents

#### III.1.3. Technical and professional ability

Selection criteria as stated in the procurement documents

## Section IV: Procedure

---

### IV.1. Description

#### IV.1.1. Type of procedure

Open procedure

#### IV.1.3. Information about a framework agreement or a dynamic purchasing system

#### IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

### IV.2. Administrative information

#### IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 04/04/2016 Local time: 17:00

#### IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

#### IV.2.4. Languages in which tenders or requests to participate may be submitted

English

#### IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 3 (from the date stated for receipt of tender)

#### IV.2.7. Conditions for opening of tenders

Date: 05/04/2016 Local time: 11:00

Place:

Wave Hub Limited, Chi Gallos, Hayle Marine Renewables Business Park, North Quay, Hayle, Cornwall, TR27 4DD.

Information about authorised persons and opening procedure: As detailed in Tender Documents.

## Section VI: Complementary information

---

### VI.1. Information about recurrence

This is a recurrent procurement: no

### VI.3. Additional information

Wave Hub is planning the installation of 4 no. 33kV rated cable tail extensions from the current dry mate connectors within the Wave Hub Safety Zone to the 4 developer berths to enable 1st developer connections. These cable tail extensions are of identical specification and were manufactured at the same time as the short 300m tails currently installed.

It is intended to replace the current 11kV rated dry mate connectors with 33kV rated in-line joints and to terminate the extension cables with 1/2 33kV dry mate connectors to accommodate Developer connection at either 11kV or 33kV.

The cable tail extensions must be installed without any damage or impairment to the existing cable system. The cable tail extension system must consider and facilitate multiple recoveries and redeployments of the dry mate connectors at the device developer berth over the 25-year project life.

The Intention of the works is to provide a flexible, reusable and reliable connection point, within the developer berths in order that different developers can connect to the grid at either 11 or 33kV through the Wave Hub infrastructure.

(MT Ref:170091).
