version 1.9.2015 available on the website www.elia.be Other forms will be described in the call for tenders.

If tenderers want to establish a consortium, the rules below have to be followed:

— A consortium has to be formed and announced at the stage of the pre-qualification questionnaire (PQQ);

the formation of a consortium within the pre-qualified tenderers in a later stage of the tendering process is not

allowed. If pre-qualified parties have however the wish to establish a consortium, the awarding authority may

allow such possibility at its sole discretion provided that the possible consortium does not distort competition

amongst the applicants. The

awarding authority can impose additional specific guidelines for this future consortium.

— A consortium has to have a transparent and existing project team with defined tasks and contact points.

— The individual members of such a consortium should have in principle a jointly and severally liability for the performance of the contract.

— The application and later bidder consortium shall remain unchanged throughout the whole procedure until the

works have been completed. If unforeseen circumstances require a change of such consortium, such as the

composition, the awarding authority may allow such change at its sole discretion provided that the change does

not distort competition amongst the applicants. The awarding authority can impose additional specific guidelines

for this future consortium.
