The notice involves a public contract

### **II.1.4. Information about framework agreement**

#### **II.1.5. Short description of the contract or purchase(s)**

The year's screening programme comprises 2 different sub projects:

1. Screening organic peroxides and new bisphenoles.
2. Screening UV chemicals and selected PBT substances.

Tenderers can give a tender for one or both projects. Attention is drawn to the fact that the notice also includes 3 options.

The aim of project 1 is to examine organic peroxides and new bisphenoles in the Norwegian environment. We need knowledge of whether these substances are being emitted to the environment and whether the levels in the environment mean that these substances are already a problem, or whether the current use can lead to an environment problem in the future.

The aim of project 2 is to examine the occurrence of a number of UV chemicals and selected PBT substances in the Norwegian environment. We need knowledge of whether these substances are being emitted to the environment and whether levels in the environment mean that these substances are already a problem, or whether the current use can lead to an environment problem in the future.
