**I.2. Main activity**

### **I.3. Contract award on behalf of other contracting entities**

The contracting entity is purchasing on behalf of other contracting entities: no

## **Section II: Object of the contract**

---

### **II.1. Description**

#### **II.1.1. Title attributed to the contract by the contracting entity**

Electrical/ Project Engineering and Infrastructure Specialists (Offshore).

#### **II.1.2. Type of contract and place of performance or delivery**

Services

Service category No 12: Architectural services; engineering services and integrated engineering services; urban planning and landscape engineering services; related scientific and technical consulting services; technical testing and analysis services

Main site or place of performance: DE, DK, NL, SE, UK.

NUTS code DK Danmark,DE Deutschland,NL Nederland,SE Sverige,UK United Kingdom

#### **II.1.3. Information about a framework agreement or a dynamic purchasing system**

The procurement involves the establishment of a framework agreement

#### **II.1.4. Information about framework agreement**

Framework agreement with several operators

Maximum number Envisaged maximum number of participants to the framework agreement : 4

##### **Duration of the framework agreement**

Duration in years: 4

##### **Estimated total value of purchases for the entire duration of the framework agreement**

Estimated value excluding VAT

Range: between 4 300 000 and 4 700 000 EUR

#### **II.1.5. Short description of the contract or purchase(s)**

This tender concerns the provision of:

A. Electrical/Project Engineers and

B. Infrastructure Specialists (HVAC systems, helicopters, fuelling, cranes, diesel generators and fire fighting).

Typical tasks and responsibilities for both roles may include the provision of technical expertise on specific topics and/or portion(s) of offshore wind projects as defined by the Employer in the area of Grid Connections, Offshore Substations (OSS), Inner Array Cabling (IAC) and Infrastructure. Assignments will have a technical or technical/commercial focus and may take place at any point within the life of a project: development, procurement, design, manufacturing, construction, handover as a generating asset.

— Support of Electrical package manager or Technical Project Manager in technical contract handling from tendering till close-out of variations and claims.

— Administrative tasks within Electrical package e.g. document handling, taking minutes, action list etc. and act as deputy at times.

— Monitoring deliveries of supplier along time schedule and engage to support successful progress (for their relevant discipline).

— Ensure contractors are acting in accordance to expected HSE practice.

— Combine technical matters with contractual and commercial relevance.

- Preparation of project specific Employer Requirements and ITT documents including alignment with requirement owners. Take part in OSS or IAC procurement process including evaluation and negotiation of bids and final selection.
  - Ensure that works are carried out in accordance with scope of supply and the Employers Requirements while meeting requirements of O&M.
  - Conduct technical analysis of emerging matters e.g. involving internal and external experts.
  - Take on handling of interfaces of Electrical package towards other project areas, e.g.
    - o Steer relevant input and ensure design optimization between Grid Connection Point, OSS, IAC, Foundation and WTG.
    - o Manage proper design and installation of electrical and/or infrastructure components between WTG and Grid Connection Point.
    - o Coordination of tasks related to grid code compliance and SCADA implementation.
    - o Exchange and solve all relevant matters towards OSS and IAC installation vessel.
  - Prepare and align (with Quality Management and technical experts) program for supply chain review and quality surveillance activities for manufacturing phase and up to commissioning for Electrical package. Set and operate reporting and documentation flow, coordinate planning and activities of site inspectors and handle close-out of Non-conformities with components supplier.
  - Implement aligned (with Certification Engineer) Certification requirements towards OSS and IAC supplier. Secure deliverables are technical conform and documents in expected quality to fulfill Certification requirements.
  - Working as Electrical Project Engineer / Manager /Infrastructure within a team of other specialists in UK, Denmark and Germany.
- Assignments will be based mainly in Vattenfall's London (UK), Kolding (DK) or Hamburg (GER) offices and potentially in Amsterdam (NL) and Solna (SE). Travel between offices and to other locations within Northern Europe will also be required.

#### **II.1.6. CPV code(s)**

71541000 Construction project management services

#### **II.1.7. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: no

#### **II.1.8. Information about lots**

This contract is divided into lots: no

#### **II.1.9. Information about variants**

Variants will be accepted: no

### **II.2. Scope of the procurement**

#### **II.2.1. Total quantity or scope**

#### **II.2.2. Information about options**

Options: no

#### **II.2.3. Information about renewals**

This contract is subject to renewal: yes

Number of possible renewals: 2

In the case of renewable contracts, estimated time-frame for subsequent calls for competition:

in months: 24 (from the award of the contract)

## **II.3. Duration of the contract or time limit for completion**

### **Section III: Legal, economic, financial and technical information**

---

#### **III.1. Conditions related to the contract**

##### **III.1.1. Deposits and guarantees required**

None.

##### **III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them**

Detailed information in the Selection Guide on the Commerce-Hub website.

##### **III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded**

Detailed information in the Selection Guide on the Commerce-Hub website.

##### **III.1.4. Contract performance conditions**

The performance of the contract is subject to particular conditions: yes

Description of particular conditions: Detailed information in the Selection Guide on the Commerce-Hub website.

Your organisation must have a back office with key personnel in North/West Europe from which knowledge and lessons learned are transferred, and where there shall be a single point of contact for Vattenfall.
