Supplies

Directive 2004/17/EC

Section I: Contracting entity

I.1. Name and addresses

Official name: AES Kilroot Power Ltd

Postal address: AES Killroot Power Station, Larne Road, Carrickfergus

Town: Belfast

Postal code: BT38 7LX

Country: United Kingdom

For the attention of: Steven Rodgers

E-mail: steven.rodgers@aes.com

Telephone: +44 2893351644

Internet address(es):

General address of the contracting entity: <http://www.aes.com>

Address of the buyer profile: <http://www.aesukireland.com>

Additional information can be obtained from:

the abovementioned address

Specifications and additional documents (including documents for a dynamic purchasing system) can be obtained from: the abovementioned address

Tenders or requests to participate must be submitted: the abovementioned address

I.2. Main activity

Electricity

I.3. Contract award on behalf of other contracting entities

The contracting entity is purchasing on behalf of other contracting entities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting entity

Supply of Aqueous Urea Solution 40 %.

II.1.2. Type of contract and place of performance or delivery

Supplies

Purchase

Main site or place of performance: AES Kilroot Power Ltd, Larne Road, Carrickfergus, County Antrim, Northern Ireland, BT38 7LX.

NUTS code UKN0 Northern Ireland

II.1.3. Information about a framework agreement or a dynamic purchasing system

II.1.4. Information about framework agreement

II.1.5.

Short description of the contract or purchase(s)

Supply of Aqueous Urea Solution 40 %.

II.1.6. CPV code(s)

24327000 Miscellaneous organic chemicals, 24957000 Chemical additives, 24000000 Chemical products, 24960000 Various chemical products, 24900000 Fine and various chemical products, 24950000 Specialised chemical products, 24310000 Basic inorganic chemicals

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

II.1.8. Information about lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

In order to comply with the requirements of the Industrial Emissions Directive (IED), Kilroot Power Station has installed Selective Non-Catalytic Reduction (SNCR) equipment on both main generating units. This SNCR equipment enables a reduction in NO_x emissions through the injection of Aqueous Urea Solution into the furnace of each main boiler. The purpose of this document is to outline technical requirements for the supply of Aqueous Urea Solution to Kilroot Power Station.

Specification:

Aqueous urea solution specification;

Product — aqueous urea solution 40 %;

Chemical composition:

Total nitrogen — min. 18,2 %;

Biuret — max. 0,4 %;

Free ammonia — max. 0,2 %;

Insolubles — max. 10ppm;

Formaldehyde — max. 5ppm;

pH — max. 10;

Water — rest to 100 % (to be demineralised water).

Physical properties:

Crystallisation point — Approx. 0°C;

Density at 20°C — Approx. 1,11kg/litre.

Suppliers will provide a complete chemical analysis of the proposed Urea solution that will be provided. Should any of the chemical constituents / physical properties fall outside the above specification, this will be clearly stated.

Quantities required:

Quantity requirements are estimated to be approximately 5 000 Tonnes per year. It should be noted that this is an estimation only and may be subject to change based on parameters that are outside the control of AES, therefore suppliers are invited to quote based on the four scenarios listed below.

Scenario requirement quantity (Total for station):

1 100 % 5 000 Tonnes;

2 75 % 3 750 Tonnes;

3 50 % 2 500 Tonnes;

4 25 % 1 250 Tonnes.

Delivery requirements:

Address for delivery is as follows: Kilroot Power Station, Larne Road, Carrickfergus, County Antrim, BT38 7LX. Supplier will outline their preferred method of delivery (e.g. Isotank / Road tanker, etc.) and will indicate quantity per load. Supplier will be required to deliver via a 3" male BSP parallel threaded fitting. Estimated lead time from placement of order to tanker arrival at Kilroot Power Station to be clearly stated. Deliveries will be expected to operate on a "call-off" basis, i.e. AES shall order deliveries as and when required. AES will have the right to postpone deliveries at any time, in the event of Power station outages, etc. Delivery and offloading will be expected to take place between the hours of 8:00 and 16:00, Monday to Friday. In exceptional circumstances this may be varied by mutual agreement.

Supplier will ensure that the temperature of the Aqueous Urea Solution is no less than 10°C upon offloading at Kilroot Power Station.

Health and safety requirements:

Safety is our number 1 priority. An AES Kilroot Health and Safety handbook will be provided and the supplier must comply with this at all times.

All work carried out on the AES Kilroot site must be done under an approved risk assessment and method statement. Risk Assessment and Method Statement to be agreed by AES and the supplier prior to the commencing of deliveries. Risk Assessment and Method Statement to be reviewed periodically and updated if required. Any deviation from the agreed Method Statement to be reviewed by AES prior to work commencing.

If Isotanks are the preferred method for delivery, ground operated vent valves must be in place to remove the requirement for delivery drivers to climb on top of the Isotank.

Quality:

— The supplier will provide AES with a quality plan detailing measures to ensure the correct material is loaded, and measures taken to ensure contamination does not take place during loading/transit;

— Upon delivery, the supplier will provide AES with a certificate of conformity detailing the chemical analysis of each load;

— Upon delivery, the supplier will provide AES with a cleaning certificate for the transport vessel to show that it was cleaned prior to loading;

— AES shall have the right to sample and carry out analysis on each delivery of Aqueous Urea Solution.

Estimated value excluding VAT

Range: between 1 and 1 000 000 GBP

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Start 1.5.2016 Completion 30.4.2019

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

The contracting entities reserves the right to require bonds, deposits, guarantees or other appropriate forms of undertaking or security to secure proper performance of the contract.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

The payments terms and details of the form of contract shall be provided in the Invitation to Tender documentation to be issued to those applicants who qualify for the tendering stage of the competition.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

The contracting entities reserves the right to require groups of economic operators to take a particular legal form upon contract award or to require that 1 party has primary liability or to require each party to be jointly and severally liable. The contracting authorities also reserves the right to require bonds, deposits, guarantees, collateral warranties or other appropriate forms of undertaking or security to secure proper performance of the contract.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: yes

Description of particular conditions: The contracting entity's requirement will be set out in the IM, Pre-qualification document and in the invitation to tender/negotiate. The successful tenderer(s) must comply with AES's terms and conditions on corporate compliance as a condition to the performance of the contract(s).

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Applicants (and consortium members, if any) shall be assessed in accordance with Part 4 of the Utilities Contract regulations 2006, as amended (implementing Title II, Chapter VII, Section 2 of Directive 2004/17/EC of the European Parliament and of the Council) — including but not limited to Regulation 26 thereof — on the basis of information provided in response to the Pre-Qualification Questionnaire documentation (which is available from the contact point referred to above). Completed Pre-Qualification Questionnaire Documents are to be submitted to the contracting entity by the date specified in Section IV.3.4)

III.2.2. Economic and financial ability

List and brief description of conditions: Applicants shall be assessed in accordance with Part 4 of the Utilities Contracts Regulations 2006, as amended (implementing Title II, Chapter VII, Section 2 of Directive 2004/17/EC of the European Parliament and of the Council) — Including Regulation 27 thereof — on the basis of information provided in response to the Pre-Qualification Questionnaire Documentation (which is available from the contact point referred to above), and particular, PQQ Parts C and F thereof. Completed Pre-Qualification Questionnaire Documents are to be submitted to the contracting entity by the date specified in Section IV.3.4)

III.2.3. Technical and professional ability

List and brief description of conditions: Applicants shall be assessed in accordance with Part 4 of the Utilities Contracts Regulations 2006, as amended (implementing Title II, Chapter VII, Section 2 of Directive 2004/17/EC of the European Parliament and of the Council) — Including

Regulation 27 thereof — on the basis of information provided in response to the Pre-Qualification Questionnaire Documentation (which is available from the contact point referred to above), and particular, PQQ Parts D, G and F thereof. Completed Pre-Qualification Questionnaire Documents are to be submitted to the contracting entity by the date specified in Section IV.3.4)

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Negotiated

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of the criteria stated in the specifications or in the invitation to tender or to negotiate

IV.2.2. Information about electronic auction

An electronic auction will be used: yes

Additional information about electronic auction: Information on the Electronic Auction will be distributed to qualified participants at a later date. Full training on the use of the reverse auction site will be provided at the expense of AES Kilroot Power Ltd.

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting entity

Supply of Aqueous Urea Solution 40%

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents

(except for a DPS)

Time limit for receipt of requests for documents or for accessing documents: 14.3.2016

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

24.3.2016 - 15:00

IV.3.5. Languages in which tenders or requests to participate may be submitted

English.

IV.3.6. Minimum time frame during which the tenderer must maintain the tender

IV.3.7. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.3. Additional information

The Invitation to Tender Questionnaire will be provided upon request. Application for information and participation to the ITT must be in writing and submitted to Steven Rodgers referencing the Contract title to Europe.Procurement@AES.com as per the details provided in Section 1.1) of this notice.

All information must be completed and returned as instructed in the Invitation to Tender Questionnaire and Information Memorandum. The response will be assessed as outlined in the PQQ and Information Memorandum.

Re II.1.5) above, this is an estimated value only. The contracting entity reserves the right to award a contract for a higher or lower amount.

Re IV.3.4) above, requests to participate (i.e. completed ITT Documents) should be submitted to Steven Rodgers, EMEA Buyer — Projects and Services, Kilroot Power Station, Larne Road, Carrickfergus, County Antrim, Northern Ireland, BT38 7LX.

VI.4. Procedures for review

VI.4.1. Review body

VI.4.2. Review procedure

VI.4.3. Service from which information about the review procedure may be obtained

VI.5. Date of dispatch of this notice

25.2.2016
