Regional or local agency/office

I.3. Main activity

General public services

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

171-BYM-2015 Procurement — Traffic controllers for signalling systems on roads 2016-2017.

II.1.2. Type of contract and place of performance or delivery

Supplies

Purchase

Main site or place of performance: Oslo, Norway.

NUTS code NO Norge

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The contracting authority is responsible for the municipality's 300 signalling systems on roads. We have a regular need to replace the equipment for these. We shall, thus, procure 21 traffic-controllers and up to four as an option for the contracting authority.

In connection with this, the Contracting Authority shall enter into a contract with 1 supplier for the delivery of traffic controllers, including installation thereof. The contract includes the delivery, assembly, programming and commissioning of the traffic-controllers, as well as the disassembly and removal of the old traffic-controllers to a prescribed place. In addition the supplier shall, as a part of the delivery, carry out a certain amount of first hand training of the contracting authority's personnel, with a view to troubleshooting, reprogramming, etc. The foundations of the traffic-controller cabinets are a part of this delivery and shall be provided by the tenderer. Our own excavation contractor will establish a manhole in front of the traffic-controller (if there is not one there already) and lay down foundations for the new cabinet. Coordination with our excavation contractor shall be included in the unit prices. There already are large cabinets in several places. The foundations shall not be replaced in these cases. See the tender documentation, specification and contract formula for further information.

II.1.6. CPV code(s)

34923000 Road traffic-control equipment, 45316212 Installation of traffic lights, 50232200 Traffic-signal maintenance services, 45316213 Installation of traffic guidance equipment

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

During the next year, the Contracting Authority shall procure and replace/install 21 new traffic controllers for the signalling systems, with option for up to 4 traffic-controllers. The contract includes the delivery, installation, programming and commissioning of the traffic-controllers, as well as the disassembly and removal of the old traffic-controllers to a prescribed place. In addition the supplier shall, as a part of the delivery, carry out a certain amount of first hand training of the contracting authority's personnel, with a view to troubleshooting, reprogramming, etc. The foundations for the traffic-controller cabinet are a part of the delivery. See the tender documentation and all annexes for further information.

II.2.2. Information about options

Options: yes

Description of options: The contracting authority shall have an option for four traffic-controllers including assembly.

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Duration in months: 012 (from the award of the contract)

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Requirement:

— The tenderer shall be a legally established company.

Documentation requirement:

— Norwegian companies: Company Registration Certificate;

— Foreign companies: Proof that the company is registered in a trade index or business register as prescribed by the law of the country where the tenderer is established.

III.2.2. Economic and financial ability

List and brief description of conditions: Requirement:

The tenderer's tax and VAT payments shall be in order.

Documentation requirement:

Tax and VAT certificate, not older than six months. The certificate can be ordered and downloaded from Altinn. If this is not possible, it can be ordered from the tax collector or the Norwegian Tax Administration

Foreign tenderers must provide certificates from equivalent authorities to the Norwegian authorities.

Requirement:

The tenderer must have the financial capacity to implement the assignment/contract.

Documentation requirement:

— The tenderer shall present annual accounts for the previous fiscal year.

— Alternatively, credit appraisal/rating, not older than 6 months, based on the last known fiscal figures. The rating shall be carried out by an officially certified credit rating institution.

If necessary, the Contracting Authority reserves the right to obtain own credit appraisals.

If, for valid reasons, the tenderer is unable to submit the documentation as requested by the contracting authority, the tenderer may prove the economic and financial position with any other document that the contracting authority finds acceptable.

III.2.3. Technical and professional ability

List and brief description of conditions:

Requirement 1:

Good implementation ability is required.

Documentation requirement:

— A description of the tenderer's technical personnel or technical units the tenderer has access to in order to fulfil the contract, regardless of whether they belong to the company or not.

Requirement 2:

Experience from equivalent contracts is required.

Documentation requirement:

— The tenderer's principal deliveries from equivalent assignments during the last 3 years, including their values, dates and recipients.

Requirement 3:

A good and well-functioning quality assurance system is required for the products that will be provided.

Documentation requirement:

— A statement of the company's quality assurance methods. If a tenderer is certified, a copy of the system certificate issued by an accredited certification body is to be enclosed.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: no

Section IV: Procedure
