The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

E8 Tromsøysund tunnel — Upgrading Tomasjord-Breivika.

II.1.2. Type of contract and place of performance or delivery

Works

Execution

Main site or place of performance: Tromsø, Norway.

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The project comprises the upgrading of the safety equipment in the Tromsøysund tunnel. The tunnel is a two course tunnel, with 15 cross cuts that link the courses together. The cross cuts are also escape routes between the tunnel courses. The tunnel has three pumping stations, where the one at the bottom of the tunnel by distribution K2F is connected to the main pumping station and reserve reservoir for water. The tunnel is under-ground and each of the courses has a length of approx. 3 500 meters.

The upgrading includes new technical buildings, establishing of 7 000 meters with conduits in the ground, i.e. infrastructure for electricity, management and monitoring system. Establishing of new distributions, management and monitoring systems, emergency booths/cupboards, ventilation, signs, lighting, pump systems, open air barriers as well as new wearing course throughout the entire tunnel. All of the existing cabling in the tunnel is to be disassembled and redeveloped. In addition, AID (automatic incident detection / camera monitoring with event detection) shall be established.

Statens vegvesen [The Norwegian Public Roads Administration] will inform the tenderer whether the work is of a nature that involves requirements of the installer

The existing facility shall be in operation right through until the new facility is commissioned and put into operation. 'Put into operation' also includes monitoring to the Vegtrafikksentralen [the Road Traffic Centre]. There will be traffic in the one tunnel course during the entire contract. This means that all of the monitoring of the tunnel shall function the entire time. The same is valid for automatic closure of the tunnel.

II.1.6. CPV code(s)

45315100 Electrical engineering installation works, 45000000 Construction work, 31710000 Electronic equipment, 31730000 Electrotechnical equipment, 48613000 Electronic data management (EDM), 48921000 Automation system

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract
