II.2.4. Description of the procurement

The National Digital Learning Arena (NDLA) is hereby establishing a dynamic purchasing system for procurements of technical consultancy services to support work on the development and management of the contracting authority's website (system architecture). The contracting authority will use this scheme to procure technical consultancy services for both assistance, advice, and development. Procurements under the scheme can, amongst other things, be for the following areas:

- Technical architecture and system advice
- UX/user experience
- Taxonomy
- H5P libraries
- Service and application development
- Code administration
- Integration and API development

See the qualification documentation for further information on the purpose of the purchasing system and procurements under the system.

New suppliers can continually qualify for participation in the system. Only qualified suppliers will have access to the procurements published under the scheme.

II.2.5. Award criteria

Quality criterion - Name: Expertise and experience / Weighting: 70

Price - Weighting: 30
