### **Section IV: Procedure**

---

#### **IV.1. Description**

##### **IV.1.1. Type of procedure**

Open procedure Accelerated procedure Justification:

According to Act on Public Procurement and Concession Contracts (1397/2016) section 57 the contracting authority may select an accelerated procedure when it renders the time limits impracticable.

The contracting authority published originally the Call for Tenders 12.10.2022 without getting compliant tenders. Also negotiated procedure did not result comparable tenders. The contracting authority decided to discontinue the procurement process 24th January 2023. The content of this Call for Tenders is the same as earlier with an exception that the EOS integration and one aircraft's yearly maintenance has been removed from the Scope of Service. Therefore, the contracting authority considers the Scope of Service being familiar to

the potential candidates and the deadline for tenders can be reduced. In addition, the originally planned delivery times for the procurement have already been compromised and to avoid further delays the right to use the accelerated procedure is being exercised.
