Value excluding VAT: 3 500 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 24

This contract is subject to renewal: yes

Description of renewals:

The contracting authority has an option for extending the contract for further 2 years, to a total maximum of 4 years.

The contracting authority can choose to take up the option for 2 years in several stages, e.g. for 1 year at a time.

Any extension must take place with a minimum of 2 months written notice before the expiry of the contract period.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

UA Haugesund region and IUA Sogn og Sunnfjord region shall have options for entering the agreement.

II.2.13.

Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Tenderers must be a legally established company. Documentation: Tenderers registered in the Norwegian Register of Business Enterprises do not need to enclose documentation. The contracting authority will control the registration by using the organisation number provided in the tenderer's Meccell profile. For tenderers that are not registered in the above-mentioned register, the tenderer must provide certificates or confirmation of registration (equivalent to a company registration certificate) in a trade register or company register as described in the legislation in the country where the tenderer is established. The certificate must not be issued more than 6 months prior to the tender deadline.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Tenderers must have sufficient economic and financial capacity to fulfil the contract.

Minimum level(s) of standards possibly required:

The required financial capacity will be assessed in relation to the contract's value, services, risk and length. Documentation for Norwegian tenderers: The contracting authority will check tenderers' financial situation from DIFI's eBevis, Proff Forvalt (<https://forvalt.no/>) and/or via information given by Creditsafe (<https://www.creditsafe.com>), and can obtain further information from the Brønnøysund Register Centre. Note that the tender documentation includes guidelines on how tenderers can supplement available information if wanted.

Documentation for foreign tenderers: Tenderers must, upon request, submit a credit rating report from a company that has a licence from the Norwegian Data Protection Authority to operate a credit information company in Norway, possibly from a company with the equivalent certification in a member country of the EU/EEA. The credit rating report must be based on updated accounting information.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Tenderers must have substantial and relevant experience. The experience must be from assignments of an equivalent complexity as the services requested in this contest.

Documentation requirement: Relevant experience is to be documented by stating a minimum of three (3) and a maximum of five (5) reference projects from the last three (3) years. The references shall include general description of the contract, value, date and contracting authority/recipient. The references are to be entered directly in the Meccell system. Only the first five projects will be assessed if more than five reference projects are listed.

System for quality assurance and environmental standard:

Requirement: The contracting authority requires tenderers to have procedures and systems for quality management. Documentation: Documentation (to be provided in the following ways):

Description of the company's procedures for quality management, with emphasis on quality

assurance, resource management, management's responsibility, manufacturing process and continual analysis and improvement. If a tenderer has valid ISO 9001:2015 certification, this certificate will be accepted as documentation of fulfilment of the qualification requirement. Requirement: The assignment requires tenderers who have routines and systems that ensure that the execution of the delivery has a low environmental impact. Documentation: Description of the company's routines and systems for ensuring low environmental impact when carrying out the delivery. If the tenderer can present certificates from independent bodies, documenting an established and satisfactory environmental management system, such certificates would be accepted as documentation of fulfilment of the requirement. For example, the requirement will be fulfilled if the tenderer holds valid ISO 14001:2015, Eco-Lighthouse, EMAS or other equivalent third party certification.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement
Framework agreement with a single operator

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information
