## **Type of contract**

Services

### **II.1.4. Short description**

Sokndal municipality invites tenderers to an open tender contest for a contract with a consulting engineering company for the completion of engineering design services for the project "flood tunnel in Sokndal municipality".

### **II.1.5. Estimated total value**

Value excluding VAT: 6 000 000,00 NOK

### **II.1.6. Information about lots**

This contract is divided into lots: no

## **II.2. Description**

### **II.2.3. Place of performance**

NUTS code: NO0A1 Rogaland

Main site or place of performance: Sokndal municipality

### **II.2.4. Description of the procurement**

Sokndal municipality has worked with alternative solutions related to the problem of flooding for many years. The project has been worked in different phases and we are now entering phase 4 in which the aim is further planning and engineering design of the flood tunnel alternative that is being prepared in collaboration with NVE. There will be a need for a project manager with competence in flood diversion using tunnels. The project also necessitates work with procurements, impact assessment, concession applications and zoning work in relation to PBL. Competence in the relevant legislation such as Water Resource law and Planning and Construction law.

### **II.2.5. Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.6. Estimated value**

Value excluding VAT: 6 000 000,00 NOK

### **II.2.7. Duration of the contract, framework agreement or dynamic purchasing system**

Start: 01/04/2023 End: 31/03/2027

This contract is subject to renewal: no

### **II.2.10. Information about variants**

Variants will be accepted: no

### **II.2.11. Information about options**

Options: yes

Description of options:

We would like an option for 2 years as there is uncertainty in relation to the planned project period, wherein the work is dependent on county and national authorities.

### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds: no

### **II.2.14. Additional information**

### III.1. Conditions for participation

#### III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Tax certificate: Norwegian tenderers must submit the following certificates: Tax certificate for tax and VAT (obtained electronically through Altinn). The tax certificate must not be more than six months calculated from the tender deadline.

Norwegian tenderers: Company registration certificate

Foreign companies: Registration certificate in a professional register as determined by the legislation in the country where the tenderer is established.

#### III.1.2. Economic and financial standing

List and brief description of selection criteria:

Tenderers must have sufficient finances to execute the contract. Creditworthiness with no requirement for guarantees will be sufficient to meet the requirement.

Minimum level(s) of standards possibly required:

Credit rating based on known accounting figures. The rating must be carried out by a credit rating agency with a licence to provide such service.

If a tenderer has valid reasons for not being able to provide the documentation requested by the contracting authority, the tenderer can document its economic and financial capacity by presenting other documents considered suitable by the contracting authority.

#### III.1.3. Technical and professional ability

List and brief description of selection criteria:

Tenderers must have experience from similar assignments.

Competence in flood diversion using tunnels and associated hatches is also competence that must be documented.

The project also necessitates work with procurements, impact assessment, concession applications and zoning work in relation to PBL.

Competence in the relevant legislation such as Water Resource law and Planning and Construction law.

Quality management: the company must be able to document its quality management system.
