E-mail: p.liebschwager@rwp.de

Telephone: +49 21186790-31

Internet address: <http://www.rwp.de>

I.2. Main activity

Electricity

I.3. Contract award on behalf of other contracting entities

The contracting entity is purchasing on behalf of other contracting entities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting entity

Supply of substructure and foundations WTG, installation of topside and substructure and/ or installation of substructure and foundation WTG.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 12: Architectural services; engineering services and integrated engineering services; urban planning and landscape engineering services; related scientific and technical consulting services; technical testing and analysis services

Main site or place of performance: Offshore Windfarm Innogy Nordsee 1 is situated approximately 32 km north of the island of Juist between the traffic separation area Terschelling-German Bight und German Bight Western Approach.

NUTS code DEZ Extra-Regio NUTS 1

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The first part of the tender called "Lot 05: Supply of Substructure & Foundation WTG" concerns the optional fabrication and supply of at least 44 and maximum 54 substructures and foundations. Each substructure and foundation consists of one monopile and a transition piece. The certified design for the 54 standard steelwork monopile substructure and foundation will be delivered by the contracting entity. It is the intention of the contracting entity to involve the contractor during the detailed design phase of the substructures and foundations. This allows the contractor to modify the detailed design as needed for its fabrication facilities. This design will be an integral part of the contract to be awarded. Alternatively, the contractor is entitled to develop foundations with own certified / certifiable (basic and detailed) design in existing time frame.

The second part of the tender called "Lot 10.02: Installation of Topside and Substructure" concerns the optional installation of one substation. The substation consists of one topside and one substructure and foundation for the topside. The substructure and foundation shall be a standard braced steelwork jacket substructure and foundation including four piles.

The third and last part called "Lot 10.05: Installation of Substructure & Foundation WTG" concerns the installation of at least 44 and maximum 54 substructures and foundations. Each substructure and foundation consists of one monopile and a transition piece.

II.1.6. CPV code(s)

45262426 Pile-fabrication work - IA21, 45244000 Marine construction works - IA21, 45262211 Pile driving - IA21, 34514800 Offshore platforms - IA21

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

II.1.8. Information about lots

This contract is divided into lots: yes

Tenders may be submitted for one or more lots

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

fabrication and supply of at least 44 and maximum 54 substructures and foundations (optional). Installation of one substation (optional). Installation of at least 44 and maximum 54 substructures and foundations.

II.2.2.

Information about options

Options: yes

Description of options: First option: fabrication and supply of at least 44 and maximum 54 substructures and foundations. Second option: Installation of one substation.

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Start 1.1.2014 Completion 31.12.2015

Information about lots

Lot No: 1

Lot title: supply of substructure and foundation WTG

1) Short description

The first part of the tender called "Lot 05: Supply of Substructure & Foundation WTG" concerns the optional fabrication and supply of at least 44 and maximum 54 substructures and foundations. Each substructure and foundation consists of one monopile and a transition piece. The certified design for the 54 standard steelwork monopile substructure and foundation will be delivered by the contracting entity. It is the intention of the contracting entity to involve the contractor during the detailed design phase of the substructures and foundations. This allows the contractor to modify the detailed design as needed for its fabrication facilities. This design will be an integral part of the contract to be awarded. Alternatively, the contractor is entitled to develop foundations with own certified / certifiable (basic and detailed) design in existing time frame.

2) CPV code(s)

45262426 Pile-fabrication work - IA21, 45244000 Marine construction works - IA21, 45262211 Pile driving - IA21, 34514800 Offshore platforms - IA21

3) Quantity or scope

Fabrication of at least 44 and maximum 54 substructures and foundations.

Lot No: 2

Lot title: Installation of topside and substructure

1) Short description

The second part of the tender called "Lot 10.02: Installation of Topside and Substructure" concerns the optional installation of one substation. The substation consists of one topside and one substructure and foundation for the topside. The substructure and foundation shall be a standard braced steelwork jacket substructure and foundation including four piles.

2) CPV code(s)

45262426 Pile-fabrication work - IA21, 45244000 Marine construction works - IA21, 45262211 Pile driving - IA21, 34514800 Offshore platforms - IA21

3) Quantity or scope

Installation of one substation.

Lot No: 3

Lot title: Installation of substructure and foundation WTG

1) Short description

The third and last part called "Lot 10.05: Installation of Substructure & Foundation WTG"

concerns the installation of at least 44 and maximum 54 substructures and foundations. Each substructure and foundation consists of one monopile and a transition piece.

2) CPV code(s)

45262426 Pile-fabrication work - IA21, 45244000 Marine construction works - IA21, 45262211 Pile driving - IA21, 34514800 Offshore platforms - IA21

3) Quantity or scope

Installation of at least 44 and maximum 54 substructures and foundations.

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

Details will be provided in the invitation to submit a tender.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

Details will be provided in the invitation to submit a tender.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

Bidding consortia have to be jointly and severally liable.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: 1. unique selling point (informational); 2. The candidate and every member of a bidding consortium has to submit Company Information (informational); 3. The awarding entity will exercise a compliance check on the candidate and its organs as well as on every member of a bidding consortium (knock-out); 4. Confirmation that the candidate and its organs have no record of successful court actions against them involving fraud, corruption or other major breaches of the Companies Act or similar law in an EU Member State. Every member of a bidding consortium must submit this confirmation. Any successful court action will lead to the exclusion of the candidate. The same applies to the event, that one member of a bidding consortium or its organs have a record of successful court actions. In that case, the whole bidding consortium will be excluded.(knock-out criterion); 5. In case of application as a bidding consortium, the bidding consortium must confirm joint liability for the execution of the total contractual obligations. Furthermore, the bidding consortium has to nominate a lead bidder as representative of the bidding consortium for the tendering procedure (knock-out criterion).

III.2.2. Economic and financial ability

List and brief description of conditions: 1. Copies of published accounts for the past 5 years (score); 2. Capacity - value of work the candidate would undertake (score); 3. Capacity - value of work the candidate has undertaken (score); 4. Levels of insurance cover currently held (score); 5. Has there

been, or is there likely to be, any substantial change in the financial affairs of the candidate since the closing date of the named accounts which may affect the ability of the candidate to successfully carry out the contract? (score); 6. Confirmation, that in the event of the award of the contract the RWEI code of conduct will be fully complied with (Knock-out criterion). 7. Confirmation of acceptance of the General Supplementary Conditions Occupational Health and Safety (GSC Industrial Safety) (knock-out).

III.2.3. Technical and professional ability

List and brief description of conditions: for each of the three lots: 1. technical capability (score); 2. organizational capability (score); 3. Health, Safety, Environment & Security (score); 4. Quality Management (score). The requirements of these topics are different for each of the three lots. The three questionnaires contain further details.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: yes

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Negotiated

Some candidates have already been selected (if appropriate under certain types of negotiated procedures): no

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of the criteria stated in the specifications or in the invitation to tender or to negotiate

IV.2.2. Information about electronic auction

An electronic auction will be used: yes

Additional information about electronic auction: The contracting entity reserves the right to use an electronic auction in order to negotiate the price. Further information will be provided in the invitation to submit a tender.

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting entity

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents

(except for a DPS)

Time limit for receipt of requests for documents or for accessing documents: 10.4.2013 - 23:59

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

11.4.2013 - 15:00

IV.3.5. Languages in which tenders or requests to participate may be submitted

English.

IV.3.6. Minimum time frame during which the tenderer must maintain the tender

IV.3.7. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

VI.3. Additional information

Additional documents (questionnaires, matrixes, non-disclosure agreement as well as terms and conditions of participation) can be obtained by e-mail. The contracting entity will send a link where the companies interested can download these documents.

This is a voluntary contract notice. Innogy Nordsee 1 GmbH has decided to perform a formal procurement procedure solely in order to create a maximum degree of transparency and competition. Innogy Nordsee 1 GmbH is not a contracting entity pursuant to Art. 2 of the Directive

2004/17/EC and to § 98 German Act against Restraints of Competition (GWB). Therefore, Innogy Nordsee 1 GmbH is not bound to the Directive 2004/17/EC, the German Act against Restraints of Competition and/or the German Sector Regulation (Sektorenverordnung). These regulations solely serve as guideline for this procurement procedure. Furthermore, the candidates/ bidders do not enjoy legal protection under the Directive

89/665/EEC and/or the German Act against Restraints of Competition. This negotiated procedure is divided in two parts: First, Innogy Nordsee 1 GmbH will examine formally the requests and check if the nondisclosure agreement as an annex of the request is not lacking, not amended and duly signed. Innogy Nordsee 1 GmbH will evaluate the requests to participate on the basis of the following criteria: commercial, technical capability, organizational capability, HSE and Quality. After this, Innogy Nordsee 1 GmbH intends to select at least three candidates for each part/ lot of the tender in order to invite them to submit their tenders. Secondly, Innogy Nordsee 1 GmbH will evaluate the tenders and negotiate with at least three bidders. The bidders are not entitled to participation in the negotiations.

Furthermore, the contract award is subject to the approval of the conclusion of the contract by the management of RWE Innogy GmbH. In the individual case, the conclusion of the contract may also be subject to the approval by other committees of RWE AG and/ or other external partners of IN1 project.

VI.4. Procedures for review

VI.4.1. Review body

VI.4.2. Review procedure

VI.4.3. Service from which information about the review procedure may be obtained

VI.5. Date of dispatch of this notice

7.3.2013
