

Norway-Trondheim: Hire of helicopters with crew

OJ S 48/2015 10/03/2015

Contract notice

Services

Directive 2004/18/EC

Section I: Contracting authority

I.1. Name and addresses

Official name: The Geological Survey of Norway (NGU)

National registration number: 970 188 290

Postal address: P.O. Box 6315 Sluppen

Town: Trondheim

Postal code: 7491

Country: Norway

Contact person: Applied Geophysics

For the attention of: Jan Steinar Rønning

E-mail: ngu@ngu.no

Telephone: +47 73904000

Fax: +47 73921620

Internet address(es):

General address of the contracting authority: <http://www.ngu.no>

Address of the buyer profile: <https://kgv.doffin.no/ctm/Supplier/CompanyInformation/Index/1709>

Electronic access to information: <https://kgv.doffin.no/ctm/Supplier/Documents/Folder/129017>

Additional information can be obtained from:

the abovementioned address

Specifications and additional documents (including documents for competitive dialogue and a dynamic purchasing system) can be obtained from:

the abovementioned address

Tenders or requests to participate must be submitted: the abovementioned address

I.2. Type of the contracting authority

National or federal agency/office

I.3. Main activity

Other: Geological and environmental surveys

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

Framework agreement for hire of helicopters for geophysical measurements.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 3: `Air transport services of passengers and freight, except transport of mail

Main site or place of performance: Trondheim.

NUTS code NO061 Sør-Trøndelag

II.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

II.1.4. Information about framework agreement

Framework agreement with a single operator

Duration of the framework agreement

Duration in years: 1

II.1.5. Short description of the contract or purchase(s)

During the 4 last years, the Geological Survey of Norway (NGU) has conducted extensive geophysical measurements using helicopters. This assignment is part of the Government's priority programme on mapping mineral resources in Northern Norway (MINN) and similarly in Southern Norway (MINS). This activity will continue in 2015 and probably in further other 3-4 years.

NGU is now requesting a price quotation for hiring helicopters mainly for 2015 but with an optional extension for 2016, 2017, 2018 and possibly in 2019. The estimate of helicopter needs in 2015 will be approximately 650 hours. The scope for the next few years is at some extent uncertain, but will probably be of the same magnitude as in 2015.

The assignment shall be allocated to 2 helicopters, 1 flying with an under hanging instrument weighing around 180 kg (Magnetic, Electromagnetic and Radiometric measurements, MAG, EM and RAD) while the other shall carry a smaller instrument (about 40 kg) used to collect Magnetic and radiometric data (MAG and RAD). Both probes shall be towed 30 meters below the helicopter. The instrument for radiometric measurements hung in a separate box under the helicopter (see Figure 1). All the instruments for processing and storing data shall be mounted in a rack placed in the helicopter back seat with an operator, this fills actually helicopter's entire back seat.

All measurements are made along preprogrammed measurements lines. The helicopter flies basically at a speed of 100 km/h at a height of 60 meters above the ground.

Survey areas.

Measurements will be conducted on Øksfjord peninsula in Finnmark, at Nordreisa in Troms and in Ballangen in Norway. All of these areas should be measured with the biggest instrument (MAG, EM and RAD) for the total of 200 helicopter hours approximately.

Furthermore measurements shall be conducted in Dividalen and further north up to the border with Sweden. This represents approximately 100 helicopter hours with the smaller instrument (MAG and RAD).

Measurements are also planned in Trøndelag, at Otta in Oppland and in Telemark. The split between the two systems (large and small instrument) is not yet clarified.

Time schedule.

NGU is planning to commence measurements activities late May 2015 as soon as snow melts in the first area. The helicopters must be available continuously until the assignment is completed sometime late autumn.

Approval of installation.

NGU has conducted a process to obtain an approval from EASA (European Aviation Security Agency) for the use of own measuring equipment on helicopters. In cooperation with Airlift AS, NGU has an approval that applies to all machines of type AS 350 (A, B / A, B2 and B3). It is assumed that the supplied helicopters must be approved for this type of measurements

according to the 'Supplemental Type Certificate, STC 10032471' issued by EASA to Airlift AS v / Head of Design, Arild Rydland when signing a contract. This approval requires, inter alia, the Airlift modified installation of the 'Utility Power outlets, DO-350-25-106'. The installation can be made by any EASA Part-145 organization, but it must be approved by Airlift EASA.21J.315 that owns the certification. NGU presumes that service provider will ensure the approval for own helicopters, but will assist in the process. More information about approval of the helicopter can be obtained by contacting Arild Rydland, Airlift EASA.21J.315.

Supplier of helicopter services must have access to floatation devices on at least 1 of the helicopters so that it can be made fly low over water.

Pilots and operators that shall manage measurements data must be approved by the Norwegian National Security Authority (NSM).

When choosing a supplier, price, pilot experience with similar measurements and the firm's delivering capacity shall be considered.

Based on information above, NGU is requesting bids for hiring helicopters for these geophysical measurements.

Prices shall be stated in Norwegian kroner (NOK)

A complete bid with a valid tax certificate and HSE declaration marked 'Helicopter for Geophysical Measurements 2015' and should be delivered by Wednesday 15.4.2015 at 12:00 to:

Geological Survey of Norway — NGU (at reception), Leiv Eiriksson road 39, Lade, 7040 Trondheim, Norway.

Bids can be optionally sent by regular mail/package: NGU, PO Box 6315 sloop, 7491 Trondheim. The provider then has the risk that the bid does not reach NGU premises in Leiv Eiriksons vei 39, Lade, Trondheim (Norway) within the deadline.

Bidders are encouraged to submit a bid's censored version that may be forwarded to other bidders on request without damaging any business sensitive information.

NGU reserves the right to reject all tenders, parts of tenders or to go further negotiations with a selection of the most appropriate suppliers. NGU reserves the right to go out with further price quotations for procurement of helicopter services depending on supply size and scope.

Electronic invoices:

NGU requires that suppliers of goods and services sends invoices and credit notes electronically in accordance with the 'Electronic commerce' format (EHF).

NGU uses 'General purchasing conditions for state purchases of merchandise.' (AIS 89).

Questions about the task directed to:

Team leader Jan S. Rønning, tel. +47 73904441, Mobile +47 90861125, E-mail: jan.ronning@ngu.no

or

Senior Engineer Frode Ofstad, tel. +47 73904450, Mobile +47 90952158, E-mail frode.ofstad@ngu.no
with a copy to ngu@ngu.no.

II.1.6. CPV code(s)

60424120 Hire of helicopters with crew

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

Hire of helicopters for geophysical measurements in 2015.

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: (1) Company registration certificate.

(2) Evidence of enrolment on professional or trade register as stated by legislation in the country where the supplier is established.

(3) Requirement to present tax certificate for VAT.

(4) Requirement to present tax certificate for taxes.

(5) Requirement to submit HSE declaration.

III.2.2. Economic and financial ability

List and brief description of conditions: (1) The company's most recent annual report including information on the company's accounting figures.

(2) Presentation of the company's annual accounts, or extracts thereof.

(3) Statement of the company's turnover in recent years with relevance to this contract.

III.2.3. Technical and professional ability

List and brief description of conditions:

1) Overview of the company's total manpower.

(2) Manpower proposed for this contract (organization chart) with names and CV for key people who will execute the mission.

(3) Principal deliveries in the last 3 years, including their value, dates and clients.

(4) A statement of the health, safety and environment policy.

(5) A statement of the quality assurance/quality control.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: yes

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Negotiated

Some candidates have already been selected (if appropriate under certain types of negotiated procedures) yes

IV.1.2. Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5

Objective criteria for choosing the limited number of candidates: Firms capacity to deliver.
Pilots experience in similar measurements.

IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue

Recourse to staged procedure to gradually reduce the number of solutions to be discussed or tenders to be negotiated no

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of Criteria below

1. Price
2. Pilots experience in similar measurements
3. Firms capacity to deliver

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

15/00149

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

15.4.2015 - 12:00

IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.3.6. Languages in which tenders or requests to participate may be submitted

English.

Other: Norwegian.

IV.3.7. Minimum time frame during which the tenderer must maintain the tender

IV.3.8. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:

no

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

VI.4.2. Review procedure

VI.4.3. Service from which information about the review procedure may be obtained

VI.5. Date of dispatch of this notice

5.3.2015
