II.2.4. Description of the procurement

A tender notice for K301, Turnkey contract with partnering contract for plumbing works. The works consist i.a. of engineering design in a partnering contract and execution of:

- sanitary installations,
- heating,
- fire-extinguishing,
- gas and compressed air,
- process cooling,
- comfort cooling,
- water treatment.

The interaction will take place partially at the same time and in integration interaction with the other contracts shown in the table below. The purpose of the interaction is that this will end up in an execution contract for each of the contracts mentioned. If the parties do not come to an understanding for an execution contract, the builder can go out into the market to engage other contractors. It may be relevant to divide the execution contract into multiple parts. E.g. it may be relevant to enter into sub contracts with extended delivery dates prior to the final implementation contract for the execution phase. The Directorate of Public Construction and Property will determine how to divide the contracts during the interaction phase, after a common progress plan has been prepared.
