The award decision notice specified the criteria for the award of the framework agreement, the reasons for the decision, including the characteristics and relative advantages, the name and score of the successful tender and specified when the standstill period was expected to end or the date before which the contracting authorities will not conclude the framework agreement. If an appeal regarding the award of a framework agreement has not been successfully resolved, the Public Contracts (Amendment) Regulations 2009 provide for aggrieved parties who have been harmed or are at risk of a breach of the rules to take action in the High Court (England, Wales and Northern Ireland). Any such action must be brought promptly (generally within 3 months). The Court may order the setting aside of the award decision or may order the Contracting Authority to amend any document and may award damages. If a framework agreement has been entered into the Court may make a declaration of ineffectiveness or may order that the duration of any relevant specific contract be shortened and additionally may award damages.
