## **I.4. Type of the contracting authority**

Regional or local authority

## **I.5. Main activity**

General public services

## **Section II: Object**

---

### **II.1. Scope of the procurement**

#### **II.1.1. Title**

The Marches and Gloucestershire Viable Clusters Broadband Project (MGVCBP)

Reference number: DN326024

#### **II.1.2. Main CPV code**

64200000 Telecommunications services - JA24

#### **II.1.3. Type of contract**

Services

#### **II.1.4. Short description**

A consortium of Local authorities lead by Herefordshire Council to deliver and support Wholesale next generation access broadband in the final 5 % of exclusively rural areas.

The Eligible Area includes 56 Lots (13,156 NGA white premises) which have not been superfast enabled by commercial endeavours or as a result of public subsidy. Candidates will be able to bid for any Lot or selection of Lots up to the maximum number.

The project will work alongside a range of existing initiatives; namely Fastershire, connecting Shropshire and Superfast Telford. These initiatives are supporting BDUK funded contracts with BT, Gigaclear and Airband as well as alternative grant funded activity such as the Marches and Gloucestershire business broadband grant scheme.

Suppliers wishing to be considered for this opportunity are required to complete and return 'Use of Existing Infrastructure Code of Conduct' form, by 12:00 noon 29.3.2018. Failure to do so will render any tender non-compliant.

#### **II.1.5. Estimated total value**

Value excluding VAT: 11 000 000,00 GBP

#### **II.1.6. Information about lots**

This contract is divided into lots: yes

Tenders may be submitted for all lots

**Section IV: Procedure**

---

**IV.1. Description**

**IV.1.1. Type of procedure**

Open procedure

**IV.1.3. Information about a framework agreement or a dynamic purchasing system**

**IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: no

**IV.2. Administrative information**

**IV.2.2. Time limit for receipt of tenders or requests to participate**

Date: 10/05/2018 Local time: 12:00

**IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates**

**IV.2.4. Languages in which tenders or requests to participate may be submitted**

English

**IV.2.6. Minimum time frame during which the tenderer must maintain the tender**

Duration in months: 3 (from the date stated for receipt of tender)

**IV.2.7. Conditions for opening of tenders**

Date: 10/05/2018 Local time: 12:00

**Section VI: Complementary information**

---

**VI.1. Information about recurrence**

This is a recurrent procurement: no

**VI.3. Additional information**

DEFRA through the Rural payments agency have awarded GBP 10 466 000 to a consortium of Local Authorities lead by Herefordshire Council to deliver the project and support Wholesale next generation access broadband interventions in the “final 5 %” of exclusively rural areas. This funding is from the European agricultural fund for rural development (EAFRD) programme. 56 significant clusters of Next generation access (NGA) white premises have been identified which could offer viable opportunities (given the provision of public subsidy towards the initial capital installation) for private sector suppliers to provide and maintain bespoke NGA capable broadband networks.

In total, the Eligible Area includes 56 Lots and 13,156 NGA white premises which have not been superfast enabled by either commercial endeavours or as a result of public subsidy and are not planned to be enabled in the near future.

The project will work alongside a range of existing initiatives and projects being delivered across the Marches and Gloucestershire to increase the availability of Next generation access broadband; namely Fastershire, connecting Shropshire and superfast Telford. These initiatives are supporting mainstream BDUK funded contracts with BT, Gigaclear and Airband as well as alternative grant funded activity such as the Marches and Gloucestershire Business broadband grant scheme.

The funding is state aid and as such the procurement will be conducted and the contract awarded using BDUK’s new National broadband scheme for the United Kingdom (referred to hereafter as the 2016 NBS).

The eligible area has been designed and refined through the undertaking of an Open Market review between October 9th and November 3rd 2017 and a formal Public Consultation between 1.12.2017 and 3.1.2018. An Industry Day on 10.11.2017 also introduced the intended intervention area and consulted on the selected delivery model of gap funding and the cluster based lotting strategy.

Candidates should note that while all 56 Lots form part of this ITT, Candidates are not required to bid for all 56 and each Lot will be evaluated separately.

The Lots have been prioritised by county as follows;

Herefordshire cluster locality.

Gloucestershire cluster locality.

Shropshire cluster locality.

Telford cluster locality.

Candidates will be able to bid for any Lot or selection of Lots up to the maximum number.

However, they are required to provide solutions with no inherent interdependency such that if a subsection of those Lots bid for are not awarded to the candidate, the authorities can be sure that the proposition is not undermined.

Each Lot solution will be evaluated independently and the highest scoring tender will be identified for each Lot.

Note: the locality names just indicate the general location of each cluster. Not every premise in those communities is included whilst premises in other communities are.

Subject to funding, some Lots may not ultimately be awarded regardless of the evaluation; value for money or any other merits of the solution.

Project agreements will be issued per supplier and the supplier will then be required to identify any cost savings that can be achieved from the amalgamation of Project agreements before contracts are issued.

The authorities place no preference on the sequencing of Lots, should candidates consider tendering for more than one Lot but all infrastructure works must be complete by the end of June 2020.

The contractor/s will be expected to provide substantial investment into the broadband network /s and to own and manage the risks associated with developing and operating the broadband network on a wholesale basis including, but not limited to, take-up risks.

In order to comply with the State aid requirement of providing the minimum public subsidy necessary to overcome the market failure to provide the required services to the eligible premises, the actual amount of subsidy will be dependent upon the chosen solution/s.
