II.1.5. Short description of the contract or purchase(s)

The notice is for the replacement of equipment in the angio laboratory.

Nordland Hospital currently has 2 angiography laboratories installed in the Diagnostics Clinic, and the equipment is getting worn/outdated. A decision has been made to procure (replace) one of these angiography laboratories. The hospital is in a review phase as regards to where hybrid procedures shall be carried out in the hospital. Clarification is expected during 2015, and we would therefore also like a parallel tender for a hybrid variant of angiography equipment.

One radiological angiography laboratory shall be procured, with an option for integration with ultrasound, CT, MR and patient monitoring. Tenders are wanted for 2 alternatives of the same equipment, 1 fixed and 1 hybrid alternative, both floor based. A hybrid alternative means an alternative where the table and/or angio stand is floor based and mobile.

The Contracting Authority uses Merccell Sourcing Service. To express your interest and gain access to any documents, please click on the link below or copy and paste the link into your browser. (<http://permalink.merccell.com/49350333.aspx>). Then follow the instructions on the website.
