Other: Private company

I.3. Main activity

Other: Transport by urban rail, tram and bus

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

Rail-mounted tool carrier / work machine.

II.1.2. Type of contract and place of performance or delivery

Supplies

Purchase

Main site or place of performance: Trondheim.

NUTS code NO061 Sør-Trøndelag

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

About the contracting authority

Boreal Transport Midt-Norge AS is a public company with approx. 240 employees, and is operator of bus and rail. The company's operations include Gråkallbanen in Trondheim, which is the world's northernmost tramway line. The tracks extends from down town at 10 m above sea level to Lian at 240 m above sea level. The steepest climb is 40:1000 (4 %).

The purpose of the procurement

Maintenance of Gråkallbanen requires a work vehicle that can run on both roads and the railway's own infrastructure. The vehicle shall be equipped with crewlift for work on the trolley line, and i.a. could also be used for clearing snow off the rails. It must also be equipped with other equipment as needed.

II.1.6. CPV code(s)

34621200 Railway maintenance or service vehicles, 34621000 Railway maintenance or service vehicles, and railway freight wagons

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

Technical and functional solution

Technical description

The road- and rail-travelling tool-carrier shall meet the following minimum requirements:

— Must be able to run on road and rail

General. Vehicle:

— Diesel operation with environmentally friendly engine. Waste-gas approved for tunnel operation is required.

— Top speed road: ≥ 60 km/h

— Min. 3 seats, including the driver

— Based on a chassis with a short wheelbase

— Tool hitches on front and rear

— Delivered in accordance with EU requirements for registration of motor vehicles

— Satisfies European standards

Rail operation:

— Gauge, 1000 mm

o Option: Operate on both 1000 mm and 1435 mm gauges

— Bogies with operations to run on rails

— Motor capacity that can handle

o The slope ratios on Gråkallbanen

o Snow clearing

o Wagon towing

— Must be able to cope with GB's track geometry (curve radii)

o Minimum turning radius of 20 metres. Desired: by 17 metres.

— ATS-ready

— Brake system designed such that it fails into a safe state

— Fail-safe control (dead man's switch)

— Emergency brake system

Equipment:

— Fully insulated lift for working on the overhead wire

o Extendible basket in the longitudinal direction

o Capacity for 2 persons and equipment

o Weight capacity 500 kg

— Crane with good carrying capacity

— Good load capacity

— Flexibility regarding mounting of trailers and other equipment

— Would like an option for the following equipment:

o Snow clearing

o Rail Grinding

o Overhead wire drum

— Other:

o Rolling material shall not contain combustible materials.

o Vehicle with mounted equipment must satisfy laws and regulations for use on trams, metros

and suburban railways in Norway.

o Service and maintenance based on the vehicle's make with a good, local service network.

o User documentation in Norwegian

Tenderers are requested to provide a description of the carriage requirements for ongoing maintenance and use of spare parts. The tenderer must provide the necessary training in the use and maintenance of the work machine.

II.2.2. Information about options

Options: yes

Description of options: Rail operation:

— Gauge, 1000 mm

o Option: Operate on both 1000 mm and 1435 mm gauges

Equipment:

— Would like an option for the following equipment:

o Snow clearing

o Rail Grinding

o Overhead wire drum

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Start 16.6.2014. Completion 31.12.2014

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded
