I.2. Type of the contracting authority

Ministry or any other national or federal authority, including their regional or local subdivisions

I.3. Main activity

General public services
Environment

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

Hazardous substances in an urban fjord.

II.1.2. Type of contract and place of performance or delivery

Services
Service category No 27: Other services
Main site or place of performance: Oslo, Norway.
NUTS code

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

"Hazardous in an urban fjord" is a programme that shall monitor the leaking of chemicals that are used in a densely populated area and look at how this affects a fjord system.

The monitoring aims to:

- estimate bio accumulation of selected hazardous substances in several trophic levels in marine food chains
- Connect exposure of hazardous substances to toxic effects in a marine ecosystem, including hormone disturbing effects and cocktail effects
- identify sources and outlets for hazardous substances in fjord systems (where do the hazardous substances go in a fjord) and design target orientated measures.

NOTE: To register your interest in this notice and obtain any additional information please visit the Doffin Web Site at http://www.doffin.no/Search/Search_Switch.aspx?ID=287499.

II.1.6. CPV code(s)

90711500 Environmental monitoring other than for construction, 90700000 Environmental services

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

II.2.2. Information about options

Options: yes

Description of options: Option 1 - Extra sampling

Tenderers shall in this option include extra sampling of organisms and sediment at some of the stations in the programme. These samples shall be used in other monitoring programmes such as screening.

Option 2 - Deposits of hazardous substances by air and precipitation to Oslo fjord.

This option includes sampling and analyses of air close to Oslo fjord. The aim of such surveys is to measure the deposits of hazardous substances by air to Oslo fjord. Tenderers are to choose the method for sampling themselves and they must include storage of the samples for short periods in annex C price and extent.

Option 3 - extra analyses of the sample material

This option consists of extra analyses of the already obtained sample material.

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: (1) Company registration certificate.
(2) Evidence of enrolment on the professional or trade register, as required by national law, in the country where the company is established
(3) Value added tax certificate (National requirement)
(4) Company tax certificate (National requirement)
(5) Self-declaration in compliance with Appendix 2 (HSE) of the Norwegian procurement regulations (National requirement)
Tenderers shall have their tax and VAT payments in order.
Tenderers shall have a functioning HSE system.
Tenderers shall be a legally established company.

III.2.2. Economic and financial ability

List and brief description of conditions: (1) Other documentation required (please state below)
Credit rating, not older than 3 months, based on the last known accounting figures. The rating shall be carried out by a publicly certified credit rating institution.
If sub supplier(s) are used, the tenderer shall enclose a binding statement that he can actually use the sub supplier'(s) capacity.
Minimum level(s) of standards possibly required: Tenderers shall have sufficient economic and financial capacity to fulfil the contract.
Sub supplier(s).

III.2.3. Technical and professional ability

List and brief description of conditions:
(1) A statement of the company's health, environment and safety policy
(2) A statement of the quality assurance/quality control system operated by the company.
(3) A certificate issued by an accredited certification authority attesting to the quality assurance, production or technical capacity of the company, or equivalent documentation (for service and works contracts)
(4) Other documentation required (please state below)
A short and general description of the company shall be given. This is to include an account of the company's business idea and core activities related to the contract, an overview of the company's history and a description of the current company.
Tenderers shall be accredited by Norsk Akkreditering or another national accreditation body that has signed the multi-lateral contracts within European Accreditation (EA) and/or the International Laboratory Accreditation Cooperation (ILAC) for accreditation of laboratories to ISO/IEC 17025.
Tenderers must substantiate routines for auditing and maintaining the quality assurance system.
Minimum level(s) of standards possibly required:
Tenderer shall have a good ability to fulfil this contract. This qualification requirement relates to the tenderer's company and not to persons included in the project.
Tenderers shall have an operative quality assurance system that functions as intended.
Tenderers shall have general accreditation in accordance with ISO/IEC 17025. If a tenderer shall use sub supplier(s) (companies for analyses or sampling), the points in the right column also apply to them.
Tenderers shall have a clear environmental profile.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: yes

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Open

IV.1.2. Information about the limits on the number of candidates to be invited

IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of Price is not the only award criterion and all criteria are stated only in the procurement documents

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

7013537.

IV.3.2. Previous publication concerning this procedure

IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document

IV.3.4. Time limit for receipt of tenders or requests to participate

27.5.2013 - 15:00

IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.3.6. Languages in which tenders or requests to participate may be submitted

Other: Norwegian

IV.3.7. Minimum time frame during which the tenderer must maintain the tender

IV.3.8. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

VI.2. Information about European Union funds

VI.3. Additional information

This notice is published subject to the Norwegian parliament's budget decision and the

Ministry of the Environment's budget grant to the Climate and Pollution Agency in the national budget for 2013-2015. If the budget limits are reduced and are not sufficient to carry out the basic programme as described in the tender documents, we must either reduce the extent of the announced programme or not implement the programme.

(NT Ref:287531)

VI.4. Procedures for review

VI.4.1. Review body

VI.4.2. Review procedure

VI.4.3. Service from which information about the review procedure may be obtained

VI.5. Date of dispatch of this notice

19.3.2013
