II.1.4.

Short description of the contract or purchase(s)

Boligbygg Oslo KF executed approximately 50 — 60 procurements annually. It is the procurement consultants at Boligbygg that actively carry out the procurements. Basically, Boligbygg has the capacity to carry out most procurements themselves, but in extremely hectic periods with many procurements or during illness, it can be necessary to hire in procurement assistance. Tenderer must therefore handle periods with assignments, and other periods with multiple assignments.

Boligbygg has procurements in the areas of building and construction, services and goods. The procurements vary in scope and there is an even distribution of procurement in all 3 sections of Laws and regulations on public procurements. There is also an even distribution of framework agreements, contracts and operational service agreements.

The agreement will primarily regard the execution of operative procurement. This involves the preparation of documents, evaluation of tender offers, administrating/following up of tenderers during the procurement process, as well as general procurement consulting.
