NUTS code

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)

II.1.4. Short description of the contract or purchase(s)

The Norwegian National Rail Administration, henceforth referred to as the Awarding Authority, shall construct a new railway station at Høvik in Bærum municipality. The works include some ground works for the new turnaround and standby tracks for trains, as well as some alteration of/construction works for new roads and water supply and sewage systems in the area. The

works shall be executed from spring 2013 until summer 2015. Høvik station is located at the old tracks between Lysaker and Sandvika. During the main part of the construction stage, the tracks are closed for train traffic, and upgrading of the tracks in other contracts will simultaneously be executed. The railway engineering works are subject to separate contracts.
