Section II: Object of the contract

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

C0010 — Finishing work claims.

II.1.2. Type of contract and place of performance or delivery

Works

Execution

Main site or place of performance: Bergen, Norway.

NUTS code

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

Bybanen Utbygging shall enter into a framework agreement with one — 1 — contractor who shall carry out minor work connected to traffic safety measures, improving existing solutions, supporting work for technical contractors and other work of a similar nature on the stretch between the centre of Bergen and Lagunen (Construction stages 1 and 2). In addition there will be an option to extend the framework agreement for 1 + 1 year for further and equivalent work on the entire stretch from the centre of Bergen to Flesland (including construction stage 3 Lagunen — Flesland). The stretch Lagunen — Flesland is expected to open summer/autumn 2016.

Examples of work that shall be carried out are the construction of minor concrete or natural stone walls, the assembly of fences and guide rails, minor asphalt work, landscape work, as well as minor water and sewage and drainage work. The complete extent of the work to be carried out cannot be clarified, only individual measures have been decided.

Continual call-offs will be required for each individual measure as and when these have been engineered and decided. Parts of the work will have to be carried out in the evenings or at night due to the light rail's regularity and possible disturbances.

The contract is estimated to have an annual value of NOK 2 000 000 excluding VAT.

Emphasis is put on the fact that this estimate is not binding in any way and the call-offs that are made will be based on the actual need.

II.1.6. CPV code(s)

45000000 Construction work, 45340000 Fencing, railing and safety equipment installation work , 45236000 Flatwork, 45234129 Urban railway track construction works, 45234000 Construction work for railways and cable transport systems, 45233222 Paving and asphaltting works, 45233000 Construction, foundation and surface works for highways, roads

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

II.2.2. Information about options

Options: yes

Description of options: The framework agreement is for 2 years with an option for a contract extension of 1+1 year. The contracting authority will have a unilateral right to take up the option for an extension.

II.2.3. Information about renewals

This contract is subject to renewal: yes

Number of possible renewals: 2

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Requirement #1: Application letter

Documentation requirement #1: Contractors must present a signed application letter.

Preferably use the template in annex 1.

Requirement #2: The contractor must have their tax, payroll tax and value added tax (VAT) payments in order.

Documentation requirement #2: Tax certificates not older than six months when calculated from the qualification deadline.

Tax certificates are defined as:

For Norwegian contractors:

— Certificate for tax and VAT RF-1244 issued by the Tax Office (joint certificate — new scheme that came into being 1.10.2014).

For foreign contractors:

— Foreign contractors must submit equivalent certificates from their own country that show that they have their tax and duty payments in order. If the authorities in the relevant country do not issue such certificates, the contractor should submit a declaration which states that all taxes and duties have been paid. The declaration shall be approved and signed by the contractor's Financial Director/ person responsible for Finance.

Requirement #3: Tenderers must fulfil Norwegian HSE requirements for work that shall be carried out in Norway.

Documentation requirement #3: Filled in and signed HSE self-declaration in accordance with PPR appendix 2. Preferably use the attached template, see annex 2.

Requirement #4: The contractor shall be a legally established company.

Documentation requirement #4:

Norwegian tenderers:

— Company Registration Certificate.

Foreign tenderers:

— Confirmation that the tenderer is registered in a trade register or company register in accordance with the law in the country where the tenderer is established.

Requirement #5: Tenderers shall follow the eight fundamental ILO conventions and there shall be continual systematic work to ensure that the company's sub suppliers comply with the requirements.

Documentation requirement #5: A signed self-declaration — The eight fundamental ILO conventions (the template in annex 4 can be used).

III.2.2. Economic and financial ability

List and brief description of conditions: Requirement #6: The contractor shall have sufficient financial strength to be able to fulfil the contract.

Documentation requirement #6: The contractor's annual accounts including notes with the board's and auditor's reports for 2013 and 2014.

If the annual accounts from 2014 are not yet completed by the tender deadline for this competition, the annual accounts for 2012 and 2011 shall be enclosed in addition to the annual accounts for 2013.

The contracting authority reserves the right to carry out a credit assessment from the credit rating company Experian. Financial strength is evaluated in relation to turnover, operating profit margin, solidity and liquidity.

The above mentioned information shall also be provided for any parent company, where necessary. See point 3.7 for details.

III.2.3. Technical and professional ability

List and brief description of conditions:

Requirement #7: The contractor shall have good conduct.

Documentation requirement #7: Contractors shall confirm in a self-declaration that the requirements in Annex 3 are fulfilled, cf. FOA (FOA § 20-12).

Requirement #8: Relevant experience from equivalent assignments/deliveries. Documentation requirement #8: A description of the company's most important relevant contracts in the last 5 years. The attached template shall be used (Annex 5). The reference description must include sufficient information to assess the relevance for this assignment. The contracting authority shall be able to contact the reference person.

Requirement #9: Very efficient SHA — Safety, health, working environment. Bybanen Utbygging has an expressed target of the H1 value being 0.

Documentation requirement #9: Tenderers shall give an account of how the tenderer can, in the best possible way, fulfil the builder's target of a H1 value of 0. An account of the company's SHA policy including the H1 and H2 values for all projects in the last three years. Describe the system for registering and following-up unwanted events (RUH)

Requirement #10: Environment: The work is to be done with the least possible impact on the environment, including noise, waste, emissions, energy consumption, and recycling.

Documentation requirement #10: Contractors must give an account of the company's practice /routines for the fulfilment of environmental requirements.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Negotiated

Some candidates have already been selected (if appropriate under certain types of negotiated procedures) no

IV.1.2. Information about the limits on the number of candidates to be invited

Envisaged minimum number 3: and Maximum number 5

Objective criteria for choosing the limited number of candidates: The selection will be based on which contractors document fulfilment of the 'requirements for technical and professional qualifications' in point 3.6 in the qualification documents in the best way.

IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue
