5.1.15. Techniques

Framework agreement:

Framework agreement, without reopening of competition

Maximum number of participants: 20

Justification for the duration of the framework agreement: Pellet sources are required from the JT-60SA Operation from Phase 3, beginning in 2027. Until Operation phase 5, the experiment pulse length will be limited by other factors and temporary sources at reduced performance are acceptable. The development of final sources, compliant with the full set of requirements detailed in Annex B, is complex and, since it is a first of a kind development, it is expected to

take several years (at least 5 years plus some margin from the delivery and test of temporary sources). The Framework Contract duration should remain active for the whole time needed for the development of this technology.

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: General Court (European Union)

Information about review deadlines: Within 2 months of notice of the award decision, you may launch an action for annulment of the award decision. Any request you may make and any reply from us, or any complaint for maladministration, will have neither the purpose nor the effect of suspending the time-limit for launching an action for annulment or to open a new period for launching an action for annulment. The body responsible for hearing annulment procedures is indicated in 8.1 ORG-0003 of this contract notice. If you believe that there was maladministration, you may lodge a complaint to the European Ombudsman within 2 years of the date when you became aware of the facts on which the complaint is based (see <http://www.ombudsman.europa.eu>)
