Other activity: Sewage treatment

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

Gardermoen Wastewater Treatment Plant — Pre-qualification for a Ventilation Contract, EV01

II.1.2. Main CPV code

45331200 Ventilation and air-conditioning installation work

II.1.3. Type of contract

Works

II.1.4. Short description

Ullensaker Municipality will expand the capacity at Gardermoen wastewater treatment plant. In addition to a considerable capacity expansion, the new Gardermoen wastewater treatment plant must fulfil significantly more stringent requirements on the reduction of the total amount

of phosphor used in the treatment process. The expansion will consist of a new treatment plant being constructed next to the existing treatment plant, a new intake pump station for the new treatment plant, and a new pre-treatment plant in order to increase the treatment capacity for deicing fluids, C-glycol, from the airport. In addition to the expanded treatment capacity, the existing administration building will also be upgraded.

The expansion of Gardermoen wastewater treatment plant, the UGRA project, will consist of several different contracts. This notice is for a ventilation contract, EV01.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

42520000 Ventilation equipment, 45331210 Ventilation installation work

II.2.3. Place of performance

NUTS code: NO082 Viken

Main site or place of performance: Gardermoen.

II.2.4. Description of the procurement

The ventilation contract consists of the delivery and assembly of a new ventilation aggregate, with the accompanying channel system for supply air and extraction for a new, free-standing treatment plant. This building will consist of approx. 4 200 m² base area with a main surface level, lower floor and basement. The aggregate for supply air and extraction from the process hall must have a capacity of approx. 70 000 m³/h of supply air and approx. 40 000 m³/h of extraction. In addition, all transport of air from spot extraction in different parts of the treatment process is included, including fans and channels with a capacity of approx. 33 000 m³/t, for new odour removal installations delivered by the process contractor. An aggregate for supply air and extraction must be delivered and assembled for the personnel part of the new treatment plant, with a capacity of approx. 3 500 m³.

The contract also includes alterations to the channel network in the existing plant, both for the alteration of the administration building, and also because the new intake pump station and the new pre-treatment plant will be connected to the existing plant and connected to the existing ventilation installations.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/09/2021 End: 30/06/2024

This contract is subject to renewal: no

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 3 Maximum number: 5 Objective criteria for choosing the limited number of candidates:

Applications for pre-qualification for participation in the tender contest will be ranked in accordance with the degree of experience related to this type of delivery and relevant references, c.f. qualification requirement No 7 in the invitation to the pre-qualification.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

An option price will be requested for connection to new odour reduction installations for the existing treatment plant. The actual odour reduction installations will be delivered by another contractor. The option, and any other options that are not yet known, will be in the tender documentation.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

The company must be legally registered.

Tenderers must fulfil, or will fulfil if a contract is awarded, statutory requirements in Norway within health, safety and the environment (HSE). This only applies to work that will be carried out in Norway.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Tenderers must have sufficiently good financial solidity.

Minimum level(s) of standards possibly required:

Tenderers must not have significant outstanding obligations regarding the payment of taxes and duties.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Tenderers must have sufficient relevant experience.

If sub-contractors are used, and where the use of sub-contractors' resources are required to fulfil the qualification requirements, commitment statements must be presented from the sub-contractors and sub-contractors must complete the ESPD form.

Tenderers must have sufficient capacity to carry out the contract work.

The tenderer's own employees must carry out minimum 30 % of the contract work hours.

Tenderers must have good quality management, HSE management and environmental management.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Negotiated procedure with prior call for competition

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 07/04/2021 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

Date: 10/05/2021

IV.2.4. Languages in which tenders or requests to participate may be submitted

Norwegian

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 2 (from the date stated for receipt of tender)

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Øvre Romerike tingrett

Postal address: Postboks 115

Town: Eidsvoll
