General public services

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

Maritime Analysis Tools

Reference number: Frontex/RP/1181/2019/AH

II.1.2. Main CPV code

72316000 Data analysis services

II.1.3. Type of contract

Services

II.1.4. Short description

By this procurement Frontex aims to acquire multiple access (minimum 4) to already existing maritime analysis tools for a period of 1 year. The contract shall be renewable, maximum 3 times, each time for another year and by the decision of Frontex. The overarching objective is to put in place a dedicated analytical capability to research systematically the maritime risk environment and deliver a set of products that identify high-risk threats, assess maritime risks and inform the key stakeholders: policy-makers and law enforcement in this important area of work. Thus, the deployment of maritime analysis tools is intended to enhance Frontex operational support to EU border/coast guard and law enforcement authorities in suppressing and preventing, among others, illegal migration and cross-border crime in the maritime domain.

II.1.5. Estimated total value

Value excluding VAT: 2 600 000,00 EUR

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: PL911 Miasto Warszawa

Main site or place of performance: Frontex premises, Warsaw, POLAND.

II.2.4. Description of the procurement

For the purpose of this contract, maritime analysis tools is defined as a system that works with maritime 'big data' (e.g. maritime reporting systems data, information on ship ownership /management, historical movements of vessels and relevant open source information). The system must be capable of producing information of interest for border/coast guard and law enforcement authorities by performing the following functions:

- (a) capturing, collecting, storing, searching, querying, visualization and updating maritime 'big data';
- (b) analysing, identifying/categorising high-risk threats, assessing maritime risks and informing policy and practice in this work area of the maritime domain;
- (c) performing analytical capabilities to research systematically the maritime risk environment and deliver a set of products, such as risk alerts/profiles, periodical strategic overviews, maritime area analyses and EU/regional risk maps.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 2 600 000,00 EUR

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 12

This contract is subject to renewal: yes

Description of renewals:

The contract shall be concluded for an initial period of 1 year with 3 possible renewals, each for 12 months.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11.

Information about options

Options: yes

Description of options:

Frontex may decide to purchase additional licences during the contract duration.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:

no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

A tenderer is asked to prove that they are authorised to perform the contract under the national law as evidenced by inclusion in a trade or professional register or a sworn declaration or certificate, membership of a specific organisation, express authorisation or entry in the VAT register.

Evidence required:

The tenderer shall provide a duly filled in and signed legal entity form (see the link below) accompanied by the documents requested therein.

http://ec.europa.eu/budget/contracts_grants/info_contracts/legal_entities/legal_entities_en.cfm

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Candidates must demonstrate that they have sufficient economic and financial resources to be able to carry out the tasks specified in this contract notice.

Minimum requirements:

— average annual turnover must be equal to or greater than 2 000 000 EUR for the last 3 financial years for which the accounts have been closed.

This evaluation shall be based on the following:

(a) a statement as to overall annual turnover during the past 3 financial years signed by the duly authorized legal representative of the company.

Minimum level(s) of standards possibly required:

As above.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

The candidates shall provide information and formalities necessary for evaluating if the requirements are met:

(a) proof that candidates are authorized to perform the contract under national law, as evidenced by inclusion in a trade or professional register or a sworn declaration or certificate, membership of a specific organization, express authorization or entry in the VAT register;

(b) a list of similar projects/contracts implemented in the past 3 years with a brief description, showing experience in the subject of this call for tender; the minimum required number is 3;

(c) characteristics/functionalities of the tool which they can provide:

Bidders are required to fill in relevant table inventorying the required capacity and capability to deliver the service required. Only tenderers capable of providing a tool with all mandatory and at least one of the optional features shall be invited to tender.

- 1) Mandatory: your tool can capture, store and manage global positional data from ship reporting systems for at least the last 5 years (e.g. comprehensive historical data on voyages, previous/next ports of call);
- 2) Mandatory: your tool allows the user to establish search rules and queries based on specific ship behaviour;
- 3) Mandatory: your tool delivers advanced analytical capabilities supported by artificial intelligence/machine learning algorithms (e.g. assessment of vessel risk-level);
- 4) Optional: your tool includes the fusion of historical, static and dynamic vessel data (e.g. vessel particulars, shipping company information and economic performance);
- 5) Optional: your tool has analytical capabilities to assess the risk level of vessel and fleet ownership/management.

Minimum level(s) of standards possibly required:

As above.
