I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Health

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

PRJ 572 Barnet Community Ophthalmology Service (Re-issue)

Reference number: DN315232

II.1.2. Main CPV code

85000000 Health and social work services

II.1.3. Type of contract

Services

II.1.4. Short description

The Barnet CCG Community ophthalmology service aim to pull together all elements of existing service provision under a single provider as well as delivering a wider range of services under this new contract. It will be up to the successful bidder to determine how they deliver this. As part of this new service provision, cataract and glaucoma screening will be provided which means the GPs will no longer refer to existing optometrists individually — rather will refer to this service who will conduct the screening accordingly.

All new referrals will be sent via Barnet referral management service (RMS), no referrals should be sent or accepted directly from the GP practices.

The estimated value of the service over 5 years is GBP 11 699 310. Inclusive of VAT. This is based on fixed tariff as detailed in the specification. The service will run for 3 years from 1.10.2018 – 30.9.2021 (with an option to extend for up to 2 years).

II.1.5. Estimated total value

Value excluding VAT: 11 699 310,00 GBP

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: UKI71 Barnet

II.2.4. Description of the procurement

Barnet community ophthalmology service aims to deliver:

- Screening service for cataracts and glaucoma.
- Ophthalmic eye service (non-complex, non-urgent).
- Surgical procedures — Cataract operations as detailed below.

The aims of the Barnet community ophthalmology service are:

- To provide a high quality specialist and screening service in the local community.
- To reduce the steps in the patient pathway where possible, improve access and reduce waiting times.
- To demonstrate a movement in the clinical threshold for accessing services for assessment, diagnosis and treatment from secondary into primary care.
- To address attrition rates from point of referral to treatment, ensuring patients are seen by the most appropriate healthcare professional in the most appropriate setting — patients that may have multiple symptoms should be seen in a general clinic to avoid multiple appointments.
- To develop common pathways of care ensuring there is no unnecessary duplication, and promote the integration and coordination of services across primary care and accredited secondary care providers.
- To reduce the number of inappropriate referrals into secondary care and offer patients a choice of provider via RMS.
- To provide a service which is evidence-based and value for money (VfM).
- To support and enable patients to manage their own conditions by providing a pro-active approach to self-management.
- To provide a service that is patient centred, and improves the patient experience.
- To deliver a package of care that moves patients swiftly along an evidenced based pathway (with stepped approach and one-stop services where possible or appropriate).
- To support an innovative approach to service delivery (i.e. extended working hours, new models of care, new technologies etc).

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 36

This contract is subject to renewal: yes

Description of renewals:

The service will run for three years from 1.10.2018 – 30.9.2021 (with an option to extend for up to 2 years).

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no
