II.2.4. Description of the procurement

This is an award notice and not a call for competition. Lot 4 is designed to allow Environment Agency and Natural England staff to supplement our in-house expertise on using natural processes to manage and restore rivers and habitats, with the additional resource and expertise that external suppliers can offer. In particular Lot 4 focuses upon the supply of river restoration, habitat creation and fish passage design expertise. We seek bids from contractors who are able to use these skills to help us understand the natural functioning of the water environment through survey and assessment work, and to help us understand and design the most effective way to deliver projects that improve natural geomorphological, hydrological and ecological processes for the purposes of reducing flood risk, restoring habitats and improving fish passage. We want suppliers to demonstrate the ability to work at the strategic catchment scale as well as the local.
