General public services

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

Bags and sacks for collecting foodwaste, plastic packaging, residual waste, garden waste and textiles and fabrics.

Reference number: 001

II.1.2. Main CPV code

19640000 Polythene waste and refuse sacks and bags

II.1.3.

Type of contract

Supplies

II.1.4. Short description

In the municipalities served by the principal Vesar As (the Vesarregion) and their collaborative municipalities Sandefjord and Larvik (~ 225 000 inhabitants), food waste and plastic packaging is primarily being collected in bags and sacks, but the Vesarregion also use containers for plastic packaging. In the Vesarregion and Sandefjord some customers additionally have their residual waste collected in sacks. The Vesarregionen also offer retrieving garden waste in paper sacks.

Biodegradable bio-bags ar used in today's food waste solution, but recycling of the reject from the treatment plant is considered, and a transition to plastic bags may become relevant during the contract period.

Plastic sacks for plastic packaging collected in containers are being considered, for enabling a control of the sorting quality.

Sacks are being considered as a solution for collecting textiles and fabrics, it may therefore be necessary to buy plastic sacks for this purpose during the contract period.

II.1.5. Estimated total value

Value excluding VAT: 25 000 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

18930000 Sacks and bags, 18937000 Goods-packing sacks

II.2.3. Place of performance

NUTS code: NO033 Vestfold

II.2.4. Description of the procurement

Referring to the short description in II.1.4. Bags and sacks covering the solutions described there are to be offered. Transparent tying sacks are to be offered for plastic packaging. For residual waste black sacks are to be offered. Green sacks for extra residual waste beyond ordinary capacity is also to be offered. For garden waste bags of paper are to be offered.

As earlier described biodegradable bio-bags ar currently being used for collecting food waste, but optionally plastic bags are also to be offered. If use of the option the plastic bags will replace biobags.

Sacks fore use in 240 l and 360 l containers are to be offered as an option.

Bags for textiles are also to be offered as an option.

For further details on the products and the procurement see the tender documents.

II.2.5. Award criteria
