

Norway-Jessheim: Electrical engineering installation works
OJ S 47/2021 09/03/2021
Contract notice – utilities
Works

Legal Basis:

Directive 2014/25/EU

Section I: Contracting entity

I.1. Name and addresses

Official name: Ullensaker kommune

National registration number: 933 649 768

Postal address: Postboks 470

Town: Jessheim

NUTS code: NO Norge

Postal code: 2051

Country: Norway

Contact person: Lars Enander

E-mail: lars.enander@sweco.no

Internet address(es):

Main address: <https://permalink.mercell.com/150862436.aspx>

Address of the buyer profile: <http://www.sweco.no/>

I.3. Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at: <https://permalink.mercell.com/150862436.aspx>

Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted electronically via: <https://permalink.mercell.com/150862436.aspx>

I.6. Main activity

Other activity: Sewage treatment

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Gardermoen Wastewater Treatment Plant — Pre-qualification for an Electrical Contract, EE01.

II.1.2. Main CPV code

45315100 Electrical engineering installation works

II.1.3. Type of contract

Works

II.1.4. Short description

Ullensaker Municipality shall expand the capacity at Gardermoen treatment plant. In addition to a considerable capacity expansion, the new Gardermoen treatment plant must fulfil significantly more stringent requirements concerning the reduction of the total amount of

phosphor used in the treatment process. The expansion will occur through building a new treatment plant in addition to the existing treatment plant, new inlet pump station for the new treatment plant and a new pre-purification plant in order to increase the purification capacity for de-icing fluid, C-diol, from the airport. In addition to the expanded treatment capacity, the existing administration building will also be upgraded.

The expansion of Gardermoen treatment plant, the UGRA project, will consist of several different contracts. This notice applies to the electrical contract, EE01.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

30195200 Electronic copyboards or accessories, 31625200 Fire-alarm systems, 42961100 Access control system, 45312100 Fire-alarm system installation work

II.2.3. Place of performance

NUTS code: NO082 Viken

Main site or place of performance: Gardermoen.

II.2.4. Description of the procurement

The new treatment plant comprises approx. 4 800 m² footprint with a main slab level, lower floor and basement. The electrical contract includes the delivery of permanent electricity supply to a new treatment plant from a new transformer to the main distributions in switchboard rooms. Furthermore, the contract includes electricity supply from the main distribution to the switchboard for process (which will supply all machines and processing installations). Board for processing as well as cabling and connection from board to process components are included in another contract. The electrical contract also includes laying as well as all cabling and connection for lights and sockets, emergency lighting systems, ventilation, heating systems, comprehensive fire alarm systems, lightning conductors and the necessary data dispersion network for the treatment plant.

The new treatment shall have backup power supply for selected parts of the process. Included in the electrical contract is also the delivery and installation of backup power units.

In addition to a new treatment plant, a new inlet pumping station and a new pre-processing plant shall be established. The electrical contract also includes lights and sockets in a new inlet pumping station and a new pre-processing plant. Power supply for lights and sockets in a new inlet pumping station and a new pre-processing plant.

The current administration shall be reconstructed. The electrical contract includes all electrical installation work in connection with the reconstruction. This includes i.a. dismantling/removal of parts of existing installations, and installation of lights and sockets in the reconstructed part of the building.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7.

Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/09/2021 End: 30/06/2024

This contract is subject to renewal: no

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 3 Maximum number: 5 Objective criteria for choosing the limited number of candidates:

Applications for pre-qualification for participation in the tender contest will be ranked in accordance with the degree of experience related to this type of delivery and relevant references, c.f. qualification requirement No 7 in the invitation to the pre-qualification.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

There are no known options at the time of invitation to pre-qualification. However, we cannot disregard requirements for options being made. Any options will be given in the tender documents.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information
