no

II.2.14. Additional information

The estimated total value for the entire contract period is NOK 43 million to NOK 48 million.

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Registration in a professional register.

Tenderers must be registered in a trade register in the member state where the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member countries can be required to fulfil other requirements in the mentioned annex.

Minimum requirements for qualification

Foreign tenderers must submit documentation of registration in a trade register. (Norwegian tenderers: Company registration certificate, not older than 6 months at the tender deadline.)

Registered in a trade register or company register.

Tenderers must be registered in a company register or trade register in the member state where the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member countries can be required to fulfil other requirements in the mentioned annex.

Minimum requirements for qualification

Norwegian tenderers: Company registration certificate, not older than 6 months at the tender deadline. (Foreign tenderers must submit documentation of registration in a trade register.)

Tax and VAT certificates

Norwegian tenderers must present a tax and VAT certificate from the Norwegian Tax Authority. The certificate must not be older than 6 months from the tender deadline.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Economic and financial capacity

Tenderers must have sufficient economical and financial capacity. This must be documented by the following: The company's annual accounts in the last three years including the board's annual report, profit and loss accounting, balance, notes, and the auditor's report. If a tenderer has any valid reasons for not being able to provide the documentation requested by Statskog, the tenderer may prove its economic and financial position with any other document that is acceptable to Statskog. If a tenderer has such valid reasons, he may contact Statskog in writing in order to clarify which other documentation is acceptable.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

The portion of the contract to be performed by sub-contractors.

The tenderer is considering to leave the following part (percentage) of the contract to sub-suppliers. Note that if a tenderer has decided to leave a part of the contract to sub-suppliers and rely on sub-suppliers' capacity to carry out this part, a separate ESPD is required for such sub-suppliers, see part II, section C above.

Technical and professional qualification requirements - assignments in the last three years.

Tenderers must give an overview of the largest and most important assignments carried out in the last three years including the assignments' dates, recipients, and values. If a tenderer believes he has a valid reason as to why he cannot present such an overview as requested by Statskog, he can contact Statskog in writing in order to clarify whether this is a reason that Statskog can accept.

Requirements for technical and professional qualifications - competence and experience.

Tenderers must provide information on who will be responsible for the assignment and the competence and experience of those who will carry out the assignment, including sub-

suppliers. Tenderers must document competence within the Norwegian PEFC Forestry Standard through a course certificate, attestations, or declarations. This concerns all department managers/forestry managers, machine operators, and work managers within reforestation. Completed PEFC courses cannot be older than five years. The Norwegian PEFC Forestry Standard will be revised in 2022. Tenderers must have a plan so that the department managers/forestry managers, machine operators, and work managers within reforestation attend a new PEFC course within one year of the new standard being approved. Information on this must be given in the account. Tenderers must be certified in accordance with ISO 14001 with the Norwegian PEFC Forestry Standard as the environmental requirement by the tender deadline. Tenderers must be certified in accordance with ISO 9001 by the tender deadline.

Technical and professional qualification requirements - machines, tools, and technical equipment.

Tenderers must provide an overview of the machines, tools and technical equipment that they can use, as documentation that the assignment can be executed in a satisfactory way.

Tenderers must describe whether the machines and equipment are equipped with the 'Best available technology' (BAT) where relevant, based on the risk of pollution and other serious environmental errors, cf. the Norwegian PEFC Forestry Standard. Information on this must be given in the account. Tenderers must have the use of felling machines with modern systems for data based marking for cross-cutting. Information on this must be given in the account.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions
