Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted to the abovementioned address

I.6. Main activity

Airport-related activities

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Ventilation plant, terminal south - Torp Sandefjord Airport

Reference number: 20180316

II.1.2. Main CPV code

45000000 Construction work

II.1.3. Type of contract

Works

II.1.4. Short description

Sandefjord Airport AS (SLH) shall replace and renovate the ventilation plants in the southern part of the terminal at Torp Sandefjord Airport. A ventilation plant shall be replaced due to the generator's poor condition. A channel system shall be reconstructed for adaptation to the current design and requirement.

II.1.5. Estimated total value

Value excluding VAT: 4 500 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: NO033 Vestfold

Main site or place of performance: Torp Sandefjord Airport.

II.2.4. Description of the procurement

The following main measures shall be carried out:

— The current ventilation plant 36.07 serves the departure /arrival hall and various service /business areas and offices in the south wing's ground and first floors. The generator is installed on the south wing's roof for the departure /arrival hall. The capacity of the generator is 30 000 m³ /h. The generator is from 1999, in a poor condition and shall be subject to demolition work. The current generator shall be replaced with 2 new generators; 36.071 and 36.072. The new generators shall be connected to water-borne heating and cooling from the energy central.

— Generator 36.09 with a capacity of 16 000 m³ /h is installed on a ramp against the south wall. The generator is currently serving the ground and first floors of the final construction stage for the south wing. The generator shall in the future only serve the ground floor with baggage handling, rooms for resting and offices. Generator 36.072 shall serve the remaining areas previously served by generator 36.09.

— The channel systems, valves, etc. shall be adapted to the new design and the current requirements.

— The air flow rate in the generators shall be adapted to requirements and controlled by the air's CO₂ content and the temperature in the involved zones.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 4 500 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 14/04/2018 End: 30/09/2018

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

See the tender documentation.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information
