Telephone: +45 53643209

Internet address(es):

Main address: <http://www.dinforsyning.dk>

Address of the buyer profile: <https://eu.eu-supply.com/ctm/Company/CompanyInformation/Index/269437>

I.6) Main activity

Production, transport and distribution of gas and heat

Section II: Object

II.1) Scope of the procurement

II.1.1) Title:

Negotiated Procedure of lot E: Wood Chips Boiler Line incl. Day Silo, Flue Gas Condensation and Ash Handling for Din Forsyning Varme a/s

Reference number: Lot E

II.1.2) Main CPV code

45251200 Heating plant construction work

II.1.3) Type of contract

Works

II.1.4) Short description:

This Invitation to Tender concerns the procurement of Lot E: Wood chips boiler line incl. day silo, flue gas condensation and ash handling for DIN Forsyning Varme A/S.

II.1.6) Information about lots

This contract is divided into lots: no

II.2) **Description**

II.2.2) **Additional CPV code(s)**

14930000 Ash and residues containing metals
42514300 Filtering apparatus
42996000 Machinery for the treatment of sewage
45232420 Sewage work
45252127 Wastewater treatment plant construction work
90420000 Sewage treatment services

II.2.3) **Place of performance**

NUTS code: DK032 Sydjylland
Main site or place of performance:
Esbjerg.

II.2.4) **Description of the procurement:**

DIN Forsyning Varme A/S in Esbjerg, Denmark is in the process of replacing the heat delivered from the existing coal fired power station (ESV3) which is going out of operation 2023.

DIN Forsyning Varme A/S has decided to establish new base load production capacity to replace the heat previously purchased from Ørsted A/S with new heat production facilities to be located in harbor area close to the existing peak load plant City Centralen and existing heat accumulator tank and distribution pumps. There will be established 60MW wood chips fired heating boiler, 50 MW heat pump and expected 30 MW of electrical boiler.

The contract is based on FIDIC Yellow Book 2017 Edition.

DIN Forsyning Varme A/S intends to enter into a contract with one contractor for the delivery of the wood chip boiler line.

All negotiations will follow the same process, see below:

- 1) Prior to the negotiating meeting, DIN Forsyning Varme A/S will send out a meeting agenda;
- 2) A short note on the assessment of the initial tender will be enclosed with the agenda. The note contains DIN Forsyning Varme A/S's assessment of relevant opportunities for improvement in the initial tender, as well as any identified reservations which DIN Forsyning Varme A/S regards as reservations.
(a) reservations means descriptions which may or must result in non-compliance if the reservation is maintained in the final tender.
- 3) The Tenderer will at the meeting have the opportunity to comment on different views on matters stated in the forwarded assessment.

DIN Forsyning Varme A/S points out that:

- only the contents of the final tender will form the basis for the evaluation of the tender and thus the basis for awarding the contract;
- fundamental elements will not form part of the negotiations;
- the criteria for awarding the contract and their weighting must remain stable throughout the procurement procedure, and they will consequently not form part of the negotiations;
- DIN Forsyning Varme A/S will document the entire process in the form of internal minutes of the meetings.

Concurrent notification will be given to the tenderers about all matters, including any changes to the contents of the tender documents.

DIN Forsyning Varme A/S will, after the initial tenders and the first negotiation process is completed carry out a shortlisting.

The shortlisting will be based on the foundation of DIN Forsyning Varme A/S evaluation of the 2nd (2.) initial tenders. The evaluation will be made in accordance with the awarding criterion specified in the contract notice and as described in section II.2.5). The tenders with the lowest point scores overall will be discarded so that it

exclusively will be the two (2) Tenderers with the highest overall point score who may enter 2nd (2.) negotiation meeting and afterwards submit final tender.

II.2.5) Award criteria

Quality criterion - Name: Technical solution / Weighting: 30

Quality criterion - Name: Project solution / Weighting: 15

Price - Weighting: 55

II.2.11) Information about options

Options: yes

Description of options:

Option 1: SCR

DIN Forsyning Varme A/S is requesting that the tenderer designs the works based on a 140 mg NO_x/Nm³ @ 6 vol-% O₂ emission level (24 h basis).

In order to accommodate potential future restrictions from the Danish environmental authorities, the tenderer is required to offer Option 1: SCR based on that the NO_x emission level is 50 mg NO_x /Nm³ @ 6 vol-% O₂.

Option 2: Service contract

As an option, the Tenderer shall quote for a five (5)-year service and maintenance agreement of the permanent works. The maintenance agreement will start at taking-over.

The tenderer shall propose the draft conditions of such maintenance agreement based on the contract's compliance with requirements.

Option 3: A condensate cleaning plant

As an option, the Tenderer shall quote a condensate treatment plant.

The tenderer shall design a complete functional condensate treatment plant (WWTP).

The condensate treatment shall be able to produce clean DH water as well as water in a quality equivalent to the parameters listed as the employer's 'water to recipient' quality parameters listed in table 3.1 Schedule 2 of annex 2.

II.2.13) Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14) Additional information

Section IV: Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.3) Information about a framework agreement or a dynamic purchasing system

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number in the OJ S: [2020/S 095-227948](#)

IV.2.8) Information about termination of dynamic purchasing system

IV.2.9) Information about termination of call for competition in the form of a periodic indicative notice

Section V: Award of contract

Contract No: 1

Title:

Negotiated Procedure of Lot E: Wood Chips Boiler Line incl. Day Silo, Flue Gas Condensation and Ash Handling for DIN Forsyning Varmer A/S

A contract/lot is awarded: yes

V.2) **Award of contract**

V.2.1) **Date of conclusion of the contract:**

22/12/2020

V.2.2) **Information about tenders**

Number of tenders received: 2

Number of tenders received from SMEs: 0

Number of tenders received from tenderers from other EU Member States: 0

Number of tenders received from tenderers from non-EU Member States: 0

Number of tenders received by electronic means: 2

The contract has been awarded to a group of economic operators: no

V.2.3) **Name and address of the contractor**

Official name: KPA Unicon Oy

National registration number: FI22180583

Postal address: Myllykatu 12

Town: Pieksämäki

NUTS code: FI SUOMI / FINLAND

Postal code: 76100

Country: Finland

E-mail: ada.herranen@kpaunicon.com

Telephone: +358 407164328

The contractor is an SME: no

V.2.4) **Information on value of the contract/lot (excluding VAT)**

V.2.5) **Information about subcontracting**

V.2.6) **Price paid for bargain purchases**

Section VI: Complementary information

VI.3) **Additional information:**

VI.4) **Procedures for review**

VI.4.1) **Review body**

Official name: Klagenævnet for Udbud

Postal address: Nævnens Hus, Toldboden 2

Town: Viborg

Postal code: 8800

Country: Denmark

E-mail: kfu@naevneshus.dk

Telephone: +45 72405708

Internet address: <https://erhvervsstyrelsen.dk/klagenaevnet-for-udbud>
