Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The Special Projects Search and Counter measures Team (SPSCM), as part of the UK Ministry of Defence ('MOD') intends to award a contract to AB Precision (ABP), for the In Service Support for the Abrasive Cutting Equipment (ACE) — NSN 1385-99-244-0530. It is considered that this contract can be placed using the Negotiated Procedure without prior publication of a contract notice pursuant to Article 28 (1) (e) of the Directive 2009/81/EC of the European Parliament and of the Council (Regulation 16 (1)(a)(ii) of the UK Defence and Security Public Contracts Regulations 2011).

The MoD cannot contract with any other economic entity as the performance of the contract requires access to technical information including plans, designs and drawings owned by AB Precision and to which only it has access. For technical reasons and the necessity to use specific know-how and expertise the contract may only be awarded to ABP. All repairs and modifications to the ACE must be underwritten by the DA to provide the MoD with the required assurance that any modification or repair will not compromise either system effectiveness or safety of the equipment. If the contract was performed by a third party then any modifications or repairs to the ACE would need to be supported by a completely new Safety Case at considerable time and expense. This additional obligation would result in disproportionate technical and safety difficulties, which would have a disproportionate impact on time and cost.
