**II.1.4. Short description**

Procurement of technical operation and maintenance services for substations and overhead lines (150 kV) in Piteå municipality, Sweden

Markbygden Net Väst AB (MBNV) is a grid utility owning an electrical grid in northern Sweden. MBNV cordially invites interested parties to apply for qualification to tender for a contract for operation and maintenance (O&M) for MBNV's electrical grid. The grid, which is newly built, consists of circa 17 km of overhead power lines and three substations. The largest substation is 400/150 kV 550 MVA and connects MBNV's grid to Svenska kraftnät's national grid.

The scope of works for the selected supplier includes planned and unplanned maintenance of the electrical facility, switching operations, round-the-clock monitoring by remote and supervision, as well as reporting and documentation of performed services.
