Title: Website Development Services

Description: The Housing Agency is undertaking a comprehensive redesign and rebuild of its primary website to better reflect the organisation's role as a modern, dynamic, and delivery-focused public body. The current site no longer meets user expectations in terms of usability, accessibility, or mobile responsiveness, and its legacy Drupal platform presents content management challenges for non-technical staff. This project will deliver a new, fully accessible, mobile-first website that showcases the Agency's leadership in housing policy, practice, and delivery. The new site will feature intuitive navigation, improved performance, and a user-friendly content management system (WordPress), with migration of existing content and a strong focus on multimedia, stakeholder engagement, and WCAG 2.2 compliance
