II.1. Scope of the procurement

II.1.1. Title

A Joint Procurement of Laboratory Services for Waterworks in Vestlandet (Western Norway) 2021

II.1.2. Main CPV code

71900000 Laboratory services

II.1.3. Type of contract

Services

II.1.4. Short description

On behalf of the municipalities of Alver, Askøy, Austevoll vatn og avløp SA, Austrheim, Bømlo vatn og avløp AS, Gulen, Kvam, Osterøy, Tysnes, Ulvik, Vaksdal and Voss, Vann Vest AS invites tenderers to participate in a contest for the delivery of laboratory services for analysis of water samples from water treatment plants and the pipeline network.

The Joint procurement of laboratory services will cover the municipalities' need for analysis of drinking water samples collected from raw water, water treatment plants and the pipeline network in accordance with the Regulation concerning Water Supply and Drinking Water (the Drinking Water Regulation). See also the Norwegian Food Safety Authority's guide to the Drinking Water Regulation.

The purchase concerns both analysis of planned samples and of samples that had to be connected in connection with emergency preparedness outside of regular working hours and other special condition related to the water supply. Included in the purchase is also the responsibility for the sample transport from the municipalities and until the analysis laboratory and supply necessary packaging.

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Registered in a trade register or company register:

Tenderers must be registered in a company register or trade register in the member state where the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member countries can be required to fulfil other requirements in the mentioned annex.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Other economic and financial requirements:

In regards to any other economic and financial requirements stated in the notice or in the procurement documents, the tenderer declares that:

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Authorisation for control

For goods or services that are complicated, or that will occasionally be used for a special purpose: Will the supplier allow control of the supplier's production capacity or technical capacity and, where necessary, of the examination and research facilities available to the supplier, and of quality control measures? The control will be performed by the contracting authority or the contracting authority can hand this over to a competent public organ in the state where the tenderer is established.

The portion of the contract to be performed by sub-contractors.

The tenderer is considering to leave the following part (percentage) of the contract to sub-suppliers. Note that if a tenderer has decided to leave a part of the contract to sub-suppliers and rely on sub-suppliers' capacity to carry out this part, a separate ESPD is required for such sub-suppliers, see part II, section C above.

Certificates issued by independent bodies for quality assurance standards.

Can tenderers present certificates issued by independent bodies as documentation that the tenderer fulfils the specified quality standards, including the requirement for universal design?

Minimum level(s) of standards possibly required:

Tenderers, together with any subcontractors, must be accredited for all analysis where the Water Supply and drinking water Regulation requires accreditation. The contracting authority uses the Norwegian Food Safety Authority's guide to the drinking water regulations as a basis for assessing the fulfillment of requirements.
