Environment

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description**II.1.1. Title**

Fish barrier Driva — Main contract.

II.1.2. Type of contract and place of performance or delivery

Works

Design and execution

Main site or place of performance: Snøvassmælan in Driva, Møre and Romsdal.

NUTS code NO Norge

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)**II.1.4. Short description of the contract or purchase(s)**

The Norwegian Environment Agencies shall built a fish barrier at Snøvassmælan in the Driva River, approx. 25 km east of Sunndalsøra in Sunndal municipality. The objective of the barrier

is to confine the river section that shall be treated with chemicals in order to exterminate the salmon parasite Gyrodactylus salaris.

The fish barrier shall be constructed as a slab concrete dam founded on a massive concrete slab $t=500$ mm which shall be casted on uncompact materials. On the upstream side steel sheet piles shall be used as sealing. The dam slab shall be established in 3 metres sections with concrete elements as sealing. For the concrete works over a massive bottom slab, approx. 40 prefabricated columns shall be assembled. Moreover, energy dissipaters shall be cast in situ on the massive slab. On the columns for the downstream dam slab, approx. 640 m^2 wire meshes shall be assembled in order to prevent the fish to go upstream regardless flow of water.

The spillway section will be approx. 80 m long and 23 m wide, with a height of 5 metres. The abutments will have a total length of 45 metres with different width on the foundation. The height will be approx. 10 metres.

On the opposite side of the access road, i.e. the National road No 70, a catch house with an area of approx. 140 m^2 shall be established, where sea trouts and salmons shall be lead in for sorting. As an access to the catch house, a 100 metres bridge with abutments on both sides shall be constructed.

The project is scheduled to be completed in July 2017.

II.1.5. CPV code(s)

45247200 Construction work for dams and similar fixed structures, 45247210 Dam construction work, 45247240 Static barrage construction work

II.1.6. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.2. Total value of the contract/lot

II.2.1. Total value of the contract/lot

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Open

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of

1. Price. Weighting 50
2. Implementation ability. Weighting 30
3. Progress. Weighting 20

IV.2.2. Information about electronic auction

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

2015/9782

IV.3.2. Previous publication concerning this procedure

Section V: Award of contract

Contract No: 1

Lot No: 1

- Lot title: The Establishment of a Fish Barrier in Driva — Main Contract

V.1. Date of conclusion of the contract

28.12.2015

V.2. Information about tenders

Number of tenders received: 6

V.3. Name and address of the contractor

Official name: Grytnes Entreprenører AS

Postal address: P.B. 24

Town: Sunndalsøra

Postal code: 6601

Country: Norway

V.4. Information on value of the contract/lot

Initial estimated total value of the contract/lot:

Value: 43 650 000 NOK

excluding VAT

V.5. Information about subcontracting

The contract is likely to be subcontracted: no

Section VI: Complementary information

VI.1. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.2. Additional information**VI.3. Procedures for review****VI.3.1. Review body****VI.3.2. Review procedure****VI.3.3. Service from which information about the review procedure may be obtained****VI.4. Date of dispatch of this notice**
