2.1. Procedure

Title: Kontraktstildeling Procurement of "Software for leakage reduction and sewerage system outflow in Municipality of Trondheim" - Prequalification

Description: Trondheim Municipality, hereinafter referred to as the contracting authority, invites tenders for a contract in the project ""Software for Leakage Reduction and Sewerage System Outflow in Municipality of Trondheim".

Procedure identifier: 7d7314a0-af04-4df2-b23a-d9507d683e41

Previous notice: 2f1592b5-883d-4e64-b87e-b1954f02aa83-01

Internal identifier: 2025/12360

Type of procedure: Negotiated with prior publication of a call for competition / competitive with negotiation

The procedure is accelerated: no

Main features of the procedure: Trondheim Municipality is seeking proposals for cloud-based software solutions that can improve the operation and management of its water distribution and sewerage networks. The municipality aims to achieve the following objectives: Reduce Water Loss: Lower water loss in the water distribution network to below 20% by 2030 by identifying and repairing leaks in both municipal and private pipes. Optimize Sewerage Network: Reduce the volume of extraneous water in the sewerage system by identifying and prioritising the largest sources and optimising sewage management to minimise outflow and overflow into recipients. We invite qualified providers to submit proposals detailing software solutions that address one or both of these objectives. Integrated solutions for both water distribution and sewage management are preferred, but solutions tailored to either field individually are also of interest. The value of the contract is estimated at NOK 10 million excluding VAT, including options. The estimated contract value is for information purposes only and the contracting authority is not bound by it. OptionsThe tender includes options for hydrological models and data sharing / API functionality, as well as annual support/ development during both project and operations.
