Title: Supplier Qualification System (“SQS”) – Maritime Services

Description: Nexel intends to establish a supplier qualification system (‘SQS’) for the procurement of contractors for onshore and offshore services in connection with work on subsea electricity cables. The scope of work to be tendered under this SQS, may include the following items: — provide vessel and equipment for transport, testing, maintenance, removal and installation of subsea electricity cables, — coordination of offshore and onshore operations with extensive management of organizational and technical interfaces, — transport, storage and handling of equipment and material to be used for installation, removal or maintenance of electricity subsea cables, The SQS is intended for the procurement of contractors for preanalyse, inspection, removal and/or installation of subsea electricity cables, as well as for other projects on subsea cables in Nexels supply area (Zealand and surrounding islands in Denmark). The SQS may be used for the award of both contracts and framework-agreements. Nexel is not obligated to purchase solely from the SQS, and may in connection with single-standing purchases choose to tender these independently. The scope of the SQS is the supply of contractors for maritime services (Onshore and offshore) which interested companies have to document competences, experiences and references within. The SQS consists of two main categories. Category 1) Maritime services, Category 2) Diving services For further details on the scope of the SQS please refer to the SQS Documents.
