Description: This procurement is covered by the tightened requirements to emphasise climate and environmental considerations, in accordance with the amendment regulations that came into force on January 1, 2024. During the planning of this procurement, the Contracting Authority has mapped the climate and environmental impact. According to PPR § 7-9 (5), it states that: "the obligation to make requirements or criteria in accordance with this provision does not apply if the procurement, in its nature, has a climate footprint and an environmental impact that is immaterial and this is justified in the procurement documents". It is clearly stated in the provision that the exception applies to procurements that have immaterial climate footprint and environmental impact. The nature of the procurement in this case is lawyer services. The work is expected to have a limited degree of travel activities, and the main benefit is the lawyer's efforts. The elements that relate to the species, i.e. the services mentioned here, lead to an immaterial climate footprint and an immaterial environmental

impact. The contracting authority will, based on its assessment, use the exclusion provisions in the procurement regulations § 7-9 fifth paragraph, as the procurement is justified as a climate footprint and an environmental impact that is immaterial. The contracting authority is therefore exempt from the obligations to weight the environment 30%.
