The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title

Provision of maintenance personnel to maintain the Chinook Helicopter – Chinook IBES (In Barracks Equipment Support).

II.1.2. Type of contract and place of performance or delivery

Services
Service category No 1: Maintenance and repair services
NUTS code UKJ3 Hampshire and Isle of Wight

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)

II.1.4. Short description of the contract or purchase(s)

Repair and maintenance services of aircraft. Joint Helicopter Command (JHC) has a requirement for the supply of suitably trained, experienced and competent aircraft engineering and support personnel in support of the Chinook aircraft.

Manpower support will predominantly be required at RAF Odiham, Hook, Hampshire with possible detached duty at other MOD locations (as required).

The potential contractor will be expected to provide the resources to deliver the required 58,457 (estimated) man-hours per annum, however there is the potential for the man-hours per annum to increase or decrease dependant on demand.

The majority of the manpower requirement will be aircraft engineering support to conduct the

preparation and recovery of Chinook aircraft prior to and following deployments, scheduled and unscheduled maintenance, fault rectification and some modification embodiment. Further manpower will be required to fulfil tasks in support of the Station Armoury Section, Survival Equipment and Ground Support Equipment Sections and the Logistic Supply Squadron as required.

The contractor should be prepared to provide suitably experienced individuals to act in a limited supervisory capacity.

The potential contractor will be required to provide all of their personnel with appropriate Personal Protective Equipment (PPE), including (but not limited to) overalls, safety boots, waterproofs etc.

Personnel may be required to undertake shift work patterns at relatively short notice.

All tasks are required to be carried out in accordance with Military Air Regulations, aircraft documentation, risk assessments and health & safety regulations, with flight safety paramount at all times.

The potential contractor will be responsible for reporting output to the MOD.

The proposed contract may be extended at the sole discretion of the authority for a period of up to a maximum of 18 months.

The authority reserves the right to determine how many months may be taken up.

Suppliers must read through this set of instructions and follow the process to respond to this opportunity.

The information and/or documents for this opportunity are available on <http://www.contracts.mod.uk/delta>

You must register on this site to respond, if you are already registered you will not need to register again, simply use your existing username and password.

Additional information

The contracting authority considers that this contract may be suitable for economic operators that are small or medium enterprises (SMEs).

However, any selection of tenderers will be based solely on the criteria set out for the procurement, and the contract will be awarded on the basis of the most economically advantageous tender.

Suppliers interested in working with the Ministry of Defence should register on the MOD Supplier Information Database (SID) Register, available at www.contracts.mod.uk

The MOD SID is a database of active and potential suppliers available to all MOD and UK Defence procurement personnel, and is the main supplier database of MOD Procurement organisations.

Please note: the registration and publication of a company profile on the MOD SID does not mean or imply that the supplier has in any way been vetted or approved by the MOD.

Suppliers wishing to compete for advertised MOD contracts must respond to any specific call for competition by submitting a separate expression of interest in accordance with the instructions of the purchasing organisation.
