II.2. Description

II.2.3. Place of performance

NUTS code: NO074 Troms og Finnmark

II.2.4. Description of the procurement

The instruments must measure vertical profiles of seawater currents (speed and direction). The instruments must be equipped with a temperature and pressure sensor. They also ought to be able to include a bottom tracing or ice tracing module. ADCPs with a short range and an extra vertical beam for high resolution turbulence measurements and/or alternatives for measuring wave height and direction and/or the depth and drifting of sea ice will be of interest for certain purposes. The ADCPs will normally be used for one to three year placements.
